Dated: March 28, 2024

This wrap fee program brochure provides information about the qualifications and business practices of our firm, Kestra Advisory Services, LLC. If you have any questions about the contents of this brochure, please contact us at 844-553-7872 or contact your financial Advisor.

The U.S. Securities and Exchange Commission, as well as state securities authorities, have not approved or verified information in our brochure. Additional information about our firm is published at www.adviserinfo.sec.gov.

References to our firm as a “registered investment adviser” or any reference to being “registered” does not imply a certain level of skill or training.

Material Changes

This section of our brochure summarizes material changes that have occurred at our firm since the previous release of our brochure. We will update this section of the brochure on an annual basis or when material changes are made. You may receive a complete copy of our brochure by contacting your financial advisor or by contacting our firm and requesting one.

The last update to wrap fee program brochure was filed on February 14, 2024. Since then, there have been no material changes.

Item 8	Client Contact with Portfolio Managers	34
Item 9	Additional Information	35

Item 4: Services, Fees, and Compensation

Kestra Advisory Services, LLC offers both wrap fee and non-wrap fee investment advisory services. This brochure describes the investment advisory services we provide through our wrap-fee program. Other advisory services offered by Kestra Advisory Services, LLC. are described in our firm ADV Part 2A brochure (non-wrap brochure) which contains the information required by Part 2A of Form ADV.

As an investment adviser, we provide advice regarding securities products and manage the investment assets of our clients. We provide investment advice through investment adviser representatives registered with our firm. We refer to these investment adviser representatives as “Advisors” in this brochure. Most of our Advisors are also registered representatives of our affiliated broker-dealer, Kestra Investment Services, LLC (Kestra IS), which makes available securities such as stocks, bonds, mutual funds, ETFs, and variable insurance products. In addition, many of our Advisors also act as insurance agents independent from our firm. We generally do not provide fixed insurance products or services. To the extent your Advisor provides fixed insurance products or services to you, he or she does so outside of our firm and supervision.

We have entered into an agreement with Envestnet Asset Management, Inc. (Envestnet) that enables our Advisors to offer the AdvisorEnterprise wrap-fee program and the services, tools, and resources described below (AdvisorEnterprise Platform). This platform includes the ability to produce an investment proposal, model building, overlay portfolio management, trading, research tools, and performance reporting. You will pay more for this platform than you will for our other advisory platforms, which do not offer our Advisors the same resources and technology as the AdvisorEnterprise Platform. We earn more on assets managed on the AdvisorEnterprise Platform than through other available platforms which serves as an incentive to place your assets on this platform and is therefore a conflict of interest.

The cost Kestra and its affiliates pay Envestnet is based on the number of accounts and the amount of client assets we have on the AdvisorEnterprise Platform. Our costs will decrease as our Advisors put more assets on the AdvisorEnterprise Platform. When our costs decrease, the savings are not shared with you or our Advisors. As a result, we have an incentive to recommend the AdvisorEnterprise Platform and therefore a conflict of interest.

An Advisor receives additional economic benefit as a result of placing business with us in the form of reduced charges for the programs and services we make available to the Advisor for use with their clients, as well as additional compensation from Kestra AS in the form of an increased payout. For example, we charge Advisors a Program Fee to access the AdvisorEnterprise Platform. fThe Program Fee includes fees for Kestra AS and its affiliates’ maintenance of the advisory platform, custody, and trading services. An Advisor receives additional economic benefit in the form of lower Program Fees as a result of placing client assets on the AdvisorEnterprise Platform. As the Program Fees decrease, the Advisor retains a greater portion of the Advisor Fee. Your Advisor therefore has a financial incentive to recommend programs on the AdvisorEnterprise Platform over other platforms, programs, or services we offer which is a conflict of interest.

Advisors receive firm-level pricing to determine their Program Fee on the AdvisorEnterprise Platform. A firm is defined as those financial professionals with a shared firm name and financial structure. The pricing level of an Advisor is based on their firm's assets under management on the AdvisorEnterprise Platform and in Horizon accounts. Some Advisors will have higher Program Fees than other Advisors.

The process for engaging us to provide you services begins with our Advisor obtaining financial information from you in order to develop investment recommendations that meet your goals and objectives. Our Advisor will review your information and analyze it in order to recommend appropriate products and service based on your investment objectives, investment time horizon and risk tolerance. You will enter into a contract with our company setting forth terms and conditions of the advisory services relationship for the AdvisorEnterprise Program. You will also enter into separate custodial/clearing agreements with the applicable custodian. We typically place securities transactions through our affiliated broker-dealer, Kestra IS, which utilizes the clearing and custodial services of NFS; however, we reserve the right to designate alternative broker-dealers or clearing and custody companies. National Financial, and not our firm, maintains custody of funds and securities in your account. Additional Information regarding National Financial is described below. In addition to this Brochure, you will also receive a copy of our Privacy Policy. You will also receive the Envestnet Brochure that further describes their services as an investment adviser.

Our Advisors will contact you, and typically meet with you, at least annually to review the performance of your AdvisorEnterprise account and any changes to your financial situation and investment goals and objectives. You are required to provide your Advisor with updated information regarding your financial condition and changes that may have occurred in your objectives, time horizon or risk tolerance. You are encouraged to contact your Advisor should you have questions about the management of your account on the AdvisorEnterprise Platform.

If you have multiple accounts, you are eligible to consolidate account assets by "household" for fee billing purposes. Generally, householding your accounts will reduce overall management fees and should be considered where applicable. Clients should discuss with their advisor which accounts will be included within a household for purposes of fee billing.

Some of the Third-Party Model Providers we make available can be accessed through different advisory platforms and programs we offer, and your Client Fee will vary depending on the platform or program selected to access the manager or strategist. While we have an incentive to recommend a higher priced platform because we earn additional fees, the cost of a particular platform or program used to access a specified manager or strategist is only one component of the overall cost and, therefore, the total fees you pay could be higher or lower in the aggregate.

Program Services and Fees

Institutional Money Management

Envestnet has entered into agreements with various Model Providers that will manage your assets either directly or through pooled investment vehicles. Through this service, our Advisors recommend managers to invest your assets based on your investment objectives and risk tolerance. You may be restricted in your ability to directly contact and consult with managers or Envestnet, but our Advisors are available to address any questions, issues or concerns regarding these managers or their recommendations. The primary ways an Advisor provides access to a manager through the AdvisorEnterprise Program are described below.

Fund Strategists Portfolios (FSP) Wrap Accounts

A Fund Strategist Portfolio is typically a risk-based asset-allocated model consisting of mutual funds and/or exchange traded funds. The Model Provider is responsible for security selection and allocation. We have, or Envestnet has, entered into agreements with various Fund Strategist Portfolio (FSP) Model Providers that provide models for investments in mutual funds and /or exchange-traded funds (ETFs). Through this service, Advisors use the models of these providers to recommend an allocation of your assets across mutual funds and/or ETFs. Envestnet is responsible for the actual trading and investment of your assets based on the recommendation of your Advisor and FSP Model Provider. You may be restricted in your ability to directly contact and consult with the FSP Model Provider or Envestnet, but your Advisor is available to address any questions, issues or concerns regarding the provider and/or their models. The result is an account portfolio comprised of selected mutual funds and/or ETFs based on your investment objectives and risk tolerance.

Accounts invested in the FSP Program typically have a minimum account size requirement between \$5,000 and \$50,000. In the FSP Program, you will pay a Client Fee, which is the sum of the Advisor Fee and the Manager Fee. We collect the Advisor Fee in connection with investment advice and ongoing account monitoring provided by your Advisor and a Manager Fee in connection with the investment management of the account.

We charge Advisors a Program Fee to access the AdvisorEnterprise Platform. The Program Fee is deducted from the Advisor Fee you negotiate with your advisor. The Program Fee is based on the amount of client assets the Advisor's firm places on the AdvisorEnterprise Platform and in Horizon accounts. The Program Fee includes fees to support Kestra AS and its affiliates' maintenance of the advisory platform, custody, and trading services. This payment structure incentivizes your Advisor to increase the Advisor Fee by an amount sufficient to offset the Program Fee, which is a conflict of interest.

The Program Fee is calculated on a blended basis. For the first \$5M of an account/household, the Program Fee ranges from 0.26% to 0.165%. Any amount above \$5M is charged a Program Fee of 0.05%. Therefore, any account or household above \$5M will have a blended Program Fee.

An Advisor receives additional economic benefit in the form of lower Program Fees as a result of placing client assets on the AdvisorEnterprise Platform; as the Program Fees decrease, the Advisor retains a greater portion of the Advisor Fee. Your Advisor therefore has a financial incentive to recommend programs on the AdvisorEnterprise Platform over other platforms, programs, or services we offer.

You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates.

In order to better support our Advisors, we make available a curated list of FSP Model Providers representing over 200 models in the FSP program. Most of the FSP Model Providers on the Curated List are Select Providers. We receive both financial and nonfinancial support from Select Providers. We receive more compensation for the sale of products of Select Providers than for the products of other providers we sell and thus have a financial incentive to sell the products of Select Providers. More information on The Curated list can be found below in Item 6.

Also, please visit our website <https://www.kestrafinancial.com/disclosures/company-information> for more information regarding the companies and amounts and types of compensation we receive. If you do not have access to our website, you may contact your Advisor or our home office for additional information.

FSP Models outside the Curated List are available upon request.

We are affiliated with Kestra Investment Management, LLC (Kestra IM). The recommendation of Kestra IM as Portfolio Manager creates a conflict of interest since our affiliate receives compensation for managing your assets in addition to the advisory fee we receive. You are under no obligation to use Kestra IM as a Portfolio Manager.

FSP Schedule

All fees are negotiable, subject to the maximum amount set forth below.

Manager Fee			Advisor Fee		Client Fee	
Assets	Min	Max	Min	Max	Min	Max
\$5,000+	0.02%	0.45%	0.00%	2.48%	0.02%	2.50%

- Client Fee is the sum of the Advisor Fee plus the Manager Fee. In instances where the maximum Advisor Fee plus the Manager Fee would exceed 2.5 percent, the Advisor fee is reduced so the Client Fee does not exceed a 2.5 percent.
- Manager fees may vary based upon FSP Model chosen.

Separately Managed Wrap Accounts (SMAs)

A Separately Managed account is typically a model consisting of individual stocks or bonds in one asset class. The Model Provider is responsible for the security selection and allocation. SMA Model Providers invest in individual stocks and bonds, providing you direct ownership of the

individual securities within the SMA portfolio. This structure provides more control over the underlying securities, allowing both you and your Advisor to customize an investment solution that reflects your individual goals and objectives.

SMA Model Providers typically have a minimum account size requirement of \$100,000, but the minimums can be as high as \$1,000,000 per account. In the SMA Program, you will pay a Client Fee, which is the sum of the Advisor Fee and the Manager Fee. We collect the Advisor Fee in connection with investment advice and ongoing account monitoring provided by your Advisor and Manager Fee in connection with the investment management of the account.

We charge Advisors a Program Fee to access the AdvisorEnterprise Platform. The Program Fee is deducted from the Advisor Fee you negotiate with your advisor. The Program Fee is based on the amount of assets the Advisor's firm places on the AdvisorEnterprise Platform and in Horizon accounts.. The Program Fee includes fees for Kestra AS and its affiliates' maintenance of the advisory platform, custody and trading services. This payment structure incentivizes your Advisor to increase the Advisor Fee by an amount sufficient to offset the Program Fee, which is a conflict of interest.

The Program Fee is calculated on a blended basis. For the first \$5M of an account/household, the Program Fee ranges from 0.26% to 0.165%. Any amount above \$5M is charged a Program Fee of 0.05%. Therefore, any account or household above \$5M will have a blended Program Fee. You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates.

An Advisor receives additional economic benefit in the form of lower Program Fees, as a result of placing client assets on the AdvisorEnterprise Platform; as the Program Fees decrease, the Advisor retains a greater portion of the Advisor Fee. Your Advisor therefore has a financial incentive to recommend programs on the AdvisorEnterprise Platform over other platforms, programs, or services we offer.

You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates.

We are affiliated with Kestra IM. The recommendation of Kestra IM as Portfolio Manager creates a conflict of interest since our affiliate receives compensation for managing your assets in addition to the advisory fee we receive. You are under no obligation to use Kestra IM as a Portfolio Manager.

All fees are negotiable, subject to the maximum amount set forth below.

SMA Schedule

Manager Fee			Advisor Fee		Client Fee	
Assets	Min	Max	Min	Max	Min	Max
\$100,000 +	0.02%	0.77%	0.00%	2.48%	0.02%	2.50%

- Client Fee is the sum of the Advisor Fee plus the Manager Fee. In instances where the maximum Advisor Fee plus Manager Fee would exceed 2.5 percent, the Advisor fee is reduced so the Client Fee does not exceed 2.5 percent.
- Manager fees may vary based upon SMA Model chosen.

Unified Managed Wrap Accounts (UMAs)

UMAs are accounts that combine one or more SMA, FSP, and/or Advisor Models consisting of mutual funds, ETFs, or individual equities into sleeves within a single account. Your assets are directly invested within each sleeve by an overlay manager that is typically responsible for allocating assets within each sleeve and monitoring and rebalancing among the sleeves. The minimum account size in the UMAs Program is \$5,000 but will vary based on the models and managers you select. The Program Fees will be higher for Advisor Models in the UMA Program than if your Advisor used the same Advisor Model in one of our other Advisor as Portfolio Manager (APM) Programs.

In the UMA Program, you will pay a Client Fee which is the sum of the Advisor Fee and the Manager Fee. We collect the Advisor Fee in connection with investment advice and ongoing account monitoring provided by your Advisor and Manager Fee in connection with the investment management of the account.

We charge Advisors a Program Fee to access the AdvisorEnterprise Platform. The Program Fee is deducted from the Advisor Fee you negotiate with your advisor. The Program Fee is based on the amount of client assets the Advisor's firm places on the AdvisorEnterprise Platform and in Horizon accounts. The Program Fee includes fees for Kestra AS and its affiliates' maintenance of the advisory platform, custody, and trading services. This payment structure incentivizes your Advisor to increase the Advisor Fee by an amount sufficient to offset the Program Fee, which is a conflict of interest.

The Program Fee is calculated on a blended basis. For the first \$5M of an account/household, the Program Fee ranges from 0.26% to 0.165%. Any amount above \$5M is charged a Program Fee of 0.05%. Therefore, any account or household above \$5M will have a blended Program Fee.

You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates.

An Advisor receives additional economic benefit in the form of lower Program Fees as a result of placing client assets on the AdvisorEnterprise Platform; as the Program Fees decrease, the Advisor retains a greater portion of the Advisor Fee. Your Advisor therefore has a financial incentive to recommend programs on the AdvisorEnterprise Platform over other platforms, programs, or services we offer.

The FSP Models available in the UMA Program are the same as the Models in the FSP Program. A subset of the of Models in the SMA Program are available in the UMA Program.

We are affiliated with Kestra IM. The recommendation of Kestra IM as Portfolio Manager creates a conflict of interest since our affiliate receives compensation for managing your assets in addition to the advisory fee we receive. You are under no obligation to use Kestra IM as a Portfolio Manager.

All fees are negotiable, subject to the maximum amount set forth below.

UMA Schedule

<u>Manager Fee</u>			<u>Advisor Fee</u>		<u>Client Fee</u>	
<u>Assets</u>	<u>Min</u>	<u>Max</u>	<u>Min</u>	<u>Max</u>	<u>Min</u>	<u>Max</u>
\$5,000 +	0.02%	0.77%	0.00%	2.48%	0.02%	2.50%

- Client Fee is the sum of the Advisor Fee plus the Manager Fee. In instances where the maximum Advisor Fee plus Manager Fee would exceed 2.5 percent, the Advisor fee is reduced so the Client Fee does not exceed 2.5 percent.
- Manager fees may vary based upon SMA and FSP Model chosen.

Advisor as Portfolio Manager Wrap (APM-Wrap)

In the APM-Wrap Program, your Advisor generally invests your assets in Advisor Models consisting of individual equity or fixed income securities, as well as pooled investment vehicles such as mutual funds and/or ETFs available through the AdvisorEnterprise Platform. We offer both discretionary and non-discretionary portfolio management services. If you want your Advisor to have discretion over the timing and amount of securities purchased or sold in your account, you will be asked to sign an addendum authorizing your Advisor to place orders for your account without contacting you in advance.

The APM-Wrap program allows us to charge one consolidated fee for investment advisory services and transaction fees rather than separately charging advisory and transaction fees as we do in the APM-Tickets program. The wrap fee is assessed as a percentage of the value of your account. Because the wrap fee does not change in relation to transaction volume, you will generally derive greater benefits from a wrap program when your account is actively traded. If, over time, your trade volume is low, we generally recommend you consider converting your account to the APM-Tickets program or terminating your advisory agreement. Likewise, if your accounts are in the APM-Tickets program and the trading activity in your account is high, we generally recommend you consider converting to the APM-Wrap program in order to avoid individual transaction charges applicable to the APM Tickets program.

Depending on the advisory fee charged by your financial advisor, the size of the account, and the number of trades placed in your account, the APM-Tickets program may cost more or less than the APM-Wrap program. When your advisor chooses to pay your transaction charges, the APM-Tickets program is the lowest cost program, providing your advisor does not adjust the Client Fee to account for their additional expense.

In the APM-Wrap Program, you will pay a Client Fee which is comprised of a Program Fee we collect in connection with our maintenance of our advisory platform and an Advisor Fee we collect

in connection with the investment advice provided through your Advisor.

The maximum Client Fee is 2.5%.

We charge Advisors a Program Fee to access the AdvisorEnterprise Platform. The Program Fee is deducted from the Client Fee you negotiate with your advisor. The Program Fee is based on the amount of client assets your Advisor's firm places on the AdvisorEnterprise Platform and in Horizon accounts. The Program Fee includes fees for Kestra AS and its affiliates' maintenance of the advisory platform, custody and trading services. This payment structure incentivizes your advisor to increase the Client Fee assessed by an amount sufficient to offset the Program Fee, which is a conflict of interest.

The Program Fee is calculated on a blended basis. For the first \$5M of an account/household, the Program Fee ranges from 0.19% to 0.095%. Any amount above \$5M is charged a Program Fee of 0.02%. Therefore, any account or household above \$5M will have a blended Program Fee.

You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates. Ticket charges on certain security types still apply, but the fees will generally be passed to your Advisor.

An Advisor receives additional economic benefit in the form of lower Program Fees as a result of placing client assets on the AdvisorEnterprise Platform; as the Program Fees decrease, the Advisor retains a greater portion of the Client Fee. Your Advisor therefore has a financial incentive to recommend programs on the AdvisorEnterprise Platform over other platforms, programs, or services we offer.

APM-Wrap accounts require a minimum account size of \$5,000. Because in the APM-Wrap program we absorb ticket charges for trades in your account, we have an incentive to limit trading in the account which creates a conflict of interest. While there is no cap on the number of trades in your account, the APM-Wrap program is priced to accommodate approximately 60 trades per account annually. We reserve the right to assess your Advisor the cost of trades that exceed this amount which creates an incentive for the Advisor to limit trading in your account to avoid this cost.

All fees are negotiable, subject to the maximum amount set forth below.

APM Wrap Fee Schedule

Maximum Client Fee: 2.5%

Ticket charges on certain security types still apply, but the fees will generally be passed to your Advisor.

Additional Information about Fees

As noted above, if there is little or no trading activity in your advisory account, or if the trades would not otherwise be subject to a transaction fee, a wrap fee arrangement may cost more than

separately paying for advisory fees and transaction charges. You should review your account statements and periodically talk to your Advisor about the level of trading in your account, the fees involved, and the type of account that makes sense for you. There may be considerations other than cost, like access to certain managers that make one program more attractive than another.

All AdvisorEnterprise Program fees are negotiable, subject to the maximum amount set forth above and are charged on a per account basis. The cost of the services provided to you through the AdvisorEnterprise Program may be more or less than the cost of purchasing similar services separately. Among the factors impacting the cost of the program are the trading volume, account size, type of account registration (e.g., retirement), nature of services we provide you, amount of assets specific to a particular strategy and the particular service or third-party manager selected.

If the Program Fee does not meet at least the specified minimums of \$60 for APM accounts with tickets (APM-Tickets), \$95 for APM accounts with wrap (APM-Wrap), \$75 for Fund Strategist Portfolios, and \$350 for Separately Managed Accounts (SMA) and Unified Managed Accounts (UMA) a minimum annual account fee will be assessed to your Advisor. Your Advisor receives an economic benefit because of your participation in the AdvisorEnterprise Platform. The amount of this economic benefit is generally more than what your Advisor would receive if you participated in our other platforms or programs or separately paid for investment advice, brokerage and other services.

We pay our Advisors a percentage of the fees we receive. Our affiliated broker-dealer, Kestra IS, pays its registered representatives a percentage of the commissions it receives. Our Advisors receive a higher percentage of the fees we receive as their production of fees and their production of commissions in their separate capacity as a registered representative of Kestra IS increases. We will also aggregate the production of several Advisors in the same branch or firm which can allow these Advisors to reach higher payouts more quickly than if the payout were based on individual production. The practice of providing a tiered payout and aggregation of production creates a conflict of interest as your Advisor is incentivized to increase their production with us and our affiliate to obtain higher compensation percentages and additional compensation. In addition, certain Advisors that meet internal criteria that include production receive additional benefits such as practice management consulting or producer trips.

Other costs may be assessed to you that are not part of the AdvisorEnterprise Platform. These may include execution charges on international and non-listed securities, dealer mark-ups, spreads paid to market-makers, and transactions executed away from National Financial. All brokerage account fees, including annual maintenance on retirement accounts, cash management, mailing, and termination fees apply to each account.

The above fees do not include other costs that you may be subject to, including the initial and ongoing expense of third party-investments or third-party pooled investment vehicles, including mutual funds, annuities, or alternative investments. Such expenses are usually set forth in the applicable offering document of the investment and are payable or borne by you in addition to other fees outlined above.

Our Chief Compliance Officer is available to address any questions that a client or prospective

client may have regarding its prospective engagement and the corresponding conflict of interest presented by such an engagement.

Investment and Brokerage Discretion

By choosing to participate in the AdvisorEnterprise FSP, SMA, or UMA programs, you are required to grant discretionary investment authority to us so that we may take all necessary steps for providing advisory services for your account, such as determining the securities and amount to be bought or sold and recommending any appropriate third-party strategist or third-party manager. We offer both discretionary and non-discretionary APM-Wrap services.

By choosing to participate in the AdvisorEnterprise Platform, you have designated Kestra IS as broker-dealer and National Financial as the clearing broker-dealer and custodian for your assets. By designating National Financial as your broker/custodian, we will not have authority to negotiate commissions among various brokers or to obtain volume discounts, and best execution may not be achieved. You may pay higher commissions and transaction cost and receive less favorable net prices than other clients. Third-party managers may have policies to aggregate trades with their own trades or trades for other clients as disclosed in more detail in each third party's disclosure Brochure. Not all investment advisers require directed brokerage.

Kestra IS introduces accounts on a fully disclosed basis to National Financial. For advisory accounts, we do not typically act in a principal capacity when initiating any trade order; however, National Financial or underlying managers may act in a principal capacity when executing a trade order. Any principal trades in an advisory account will be handled in accordance with applicable law. Agency cross transaction take place when we cause a security to be transferred from one account to another. Agency cross transactions are not permitted in Advisory Accounts.

Item 5: Account Requirements and Types of Clients

Our clients include individuals, pension and profit-sharing plans, corporations and other business organizations, trusts, estates and charitable organizations. We may waive the account minimum at our discretion for related accounts. There is a Minimum Annual Account Fee that will vary by program on AdvisorEnterprise. Kestra AS (the sponsor of this program) assess fees based on the size of the account. Certain accounts may have assets that do not generate the Minimum Annual Account Fee.

If the Program fee does not meet at least the specified minimums of \$60 for Advisor as Portfolio Manager Tickets (APM-Tickets) accounts, \$95 for Advisor as Portfolio Manager Wrap (APM-Wrap) accounts, \$75 for Fund Strategist Portfolio (FSP) accounts and \$350 for Separately Managed Accounts (SMA) and Unified Managed Accounts (UMA) the annual minimum account fee will be charged to your Advisor.

Item 6: Portfolio Manager Selection and Evaluation

Our research and due diligence process is a multi-step approach designed to identify and monitor the managers in the AdvisorEnterprise Platform to provide services for you over various market cycles. Through our relationship with Envestnet, we rely primarily on Envestnet to identify prospective managers and to perform due diligence on such managers that may be selected in the AdvisorEnterprise Program. Managers are typically evaluated based on data and information from various third-party sources, such as independent databases, and from the manager. Among the information collected and analyzed are historical performance, investment philosophy, investment style, historical volatility, and correlation across asset classes.

To the extent Envestnet has not performed the research and due diligence on a third-party manager, we will review the third party through our internal due diligence process. Managers are typically evaluated based on data and information from various third-party sources, such as independent databases, and from the particular manager. Among other things, our process entails examining items such as the disclosure Brochure on Form ADV, Part 2A of the manager, any applicable offering document, performance reports and other information as deemed necessary to help determine the third party's investment strategy. We also attempt to verify information by comparing it to publicly available sources.

Advisors are also responsible for the selection of any third-party investments or investment vehicle. Based upon your specific situation, requirements, and suitability, Advisors will recommend the replacement of any third-party investments or investment vehicle consistent with their duties as a fiduciary under applicable law.

In the FSP and UMA programs, we make available a Curated List of FSP Model Providers as the default option. The criteria for selecting FSP model Providers includes:

Ample coverage across manager investment styles (Strategic, Dynamic, Tactical, Thematic), investor life stage, and risk tolerance.

A clearly articulated investment thesis for how the Model Providers manage their respective models.

Consistent application of their (Model Providers) investment thesis across different market conditions.

The ability and willingness to adequately support Kestra and your Advisor with ongoing education and marketing efforts including, but not limited to, in person meetings and events, periodic webinars, literature on markets and economic environment, best business practices, and portfolio construction tools.

We are affiliated with Kestra Investment Management, LLC (Kestra IM). Kestra IM is a Portfolio Manager available in the FSP and SMA wrap programs. Kestra IM provides ongoing discretionary investment management services to clients through programs and platforms offered by or through affiliated registered investment advisers. The recommendation of Kestra IM as Portfolio Manager

creates a conflict of interest since our affiliate receives compensation for managing your assets in addition to the advisory fee we receive. You are under no obligation to use Kestra IM as a Portfolio Manager for your Portfolio. We use the same selection and review process for Kestra Affiliates as we do for unaffiliated firms. Kestra IM was established in 2021 and, as a new investment adviser, has a limited track record and manager tenure.

As soon as possible, but in no event later than 45 days after the end of each calendar quarter, we, the custodian, or Envestnet will make available to you via electronic means a quarterly statement containing a description of all activity in your account during the previous quarter. Account statements will be forwarded by National Financial on a quarterly basis. If trading activity occurs in the account during a month that is not a quarter-end month, a monthly statement will be sent to you.

Statements will be sent in one package per account group with a Consolidated Summary of Accounts Page as long as the address on each account matches the primary account. If a primary account is not designated, we or your Advisor will select one. National Financial will make copies of account statements and summary pages available electronically on its Wealthscape system for us or your Advisor and on its Wealthscape Investor system for you. Your Advisor must be enrolled on the Wealthscape system in order for you to view statements online with Wealthscape Investor. Please contact your Advisor should you want access to Wealthscape Investor. As with all investments, we do not guarantee positive performance results.

We typically do not review performance information of third parties, and performance information may not be calculated on a uniform or consistent basis among each third-party manager available through AdvisorEnterprise. Further, third parties may not calculate performance in accordance with any industry or other standards.

Advisory Business

As an investment adviser, we are subject to a fiduciary duty requiring that we act and provide investment advice in our clients' best interest. We also are required to provide full and fair disclosure of material facts associated with our services and investment advice. We must act to avoid conflicts of interest or disclose these conflicts to our clients. This brochure is designed to explain our services and how we provide investment advice and to disclose conflicts of interest associated with our services and advice.

We provide investment advice through investment adviser representatives registered with our firm. We refer to these financial advisors as "Advisors" in this brochure. Our primary methods of providing investment advisory services are: 1) Advisor managed accounts; 2) third-party recommendations; 3) financial planning; 4) wrap-fee programs; 5) individual retirement planning services; and 6) qualified and non-qualified retirement plan services. We describe these services in more detail below. If you are a retirement plan client, please refer to our Retirement Plan Brochure.

Generally, prior to opening an advisory account with us, your Advisor will meet with you to

understand your investment experience, investment objectives, risk tolerance and current financial circumstances in order to create an investment profile for you. This investment profile helps your Advisor determine appropriate investment products and services for you. Should you engage our firm, you will enter into an agreement with us setting forth terms and conditions of the advisory services relationship, including fees to be charged and authorization for the Advisor to purchase and sell securities on your behalf consistent with your defined investment objectives. Generally, your Advisor will recommend, purchase, or sell mutual funds, variable insurance products and investments in their sub-accounts, exchange-traded funds, equities (stocks) and fixed income securities (bonds). Your Advisor may also recommend various alternative investments, typically designed to diversify your portfolio, and a portion of your account may also remain in cash, a cash product, or a money market fund.

Our firm supports independent Advisors, and while we oversee their advice and asset management, subject to our fiduciary duty and rules of suitability, we do not dictate the products, platforms, or services your Advisor recommends to you within the scope of available options we make available to your Advisor. We offer a variety of investment advisory platforms, custodians, and brokers, including our own affiliated broker-dealer. Most of our Advisors are also registered representatives of our affiliated broker-dealer, Kestra Investment Services, LLC (Kestra IS). Please refer to the **Brokerage Practices** section for additional information regarding our broker-dealer affiliate.

In addition, many of our Advisors also act as insurance agents independent from our firm. To the extent your Advisor provides fixed insurance products or services to you (other than fixed indexed annuities), he or she does so outside of our firm and supervision.

Some of our Advisors are also involved in other business activities, such as accounting, legal, tax, and other non-investment services for which we are not responsible. Unless otherwise provided by applicable law and the particular circumstances, services provided by our Advisors outside of our company will not be subject to a fiduciary standard. Our firm does not provide legal or tax advice and you should consult your own attorney or tax advisor for guidance relative to your specific circumstances.

ADVISOR MANAGED ACCOUNTS

With an Advisor Managed Account, your Advisor will be responsible for managing your account consistent with your defined objectives and risk tolerance and may assist you to develop a personalized asset allocation program and custom-tailored portfolio. The recommended portfolio will typically include investments such as mutual funds, exchange-traded funds, variable annuities, stocks, bonds, direct participation programs or a combination of these products. A portion of your account may also remain in cash or a money market fund.

In an Advisor Managed Account, your Advisor typically will diversify your holdings across various asset classes, or delegate this responsibility to a Third-Party Model Provider, unless your objective is to invest in specific assets. The percentage weightings within the asset classes will be based on your risk profile, investment objectives, individual preferences and availability. You will have the opportunity to meet with your Advisor to periodically review the assets in your Advisor Managed

Account. We recommend you and your Advisor meet on a regular basis to review your financial situation, investment objectives and current holdings, and you should let your Advisor know about any changes to your circumstances in the meantime.

You will maintain full and complete ownership of all assets held in your Advisor Managed Account. This means you retain the right to add or withdraw securities or cash, pledge securities, and vote securities. We will not pool your Advisor Managed Account assets with assets in other accounts. You will receive periodic statements from the account custodian.

We offer both discretionary and non-discretionary portfolio management services. If you want your Advisor to have discretion over the timing and amount of securities purchased or sold in your account, you will be asked to sign an addendum authorizing your Advisor to place orders for your account without contacting you in advance.

We place most transactions in Advisor Managed Accounts through our affiliated broker-dealer, Kestra IS, and its unaffiliated clearing broker-dealer and custodian, National Financial Services, LLC (NFS), but also use other broker-dealers and custodians. Please refer to the **Brokerage Practices** section for additional information.

ADVISORY PLATFORMS

Through our relationships with NFS and other custodial and clearing firms, we make available platforms (Advisory Platforms) to assist our Advisors to provide you an Advisor Managed Account. Examples of our Advisory platforms include the AdvisorEnterpriseSM platform, Horizon, and AdvisorChoice platform described in more detail below. Through these Advisory platforms, our Advisors provide investment advice to you combined with portfolio administration and reporting services, advisory fee processing, and account reconciliation.

AdvisorEnterprise Platform

Our relationship with Envestnet Asset Management, Inc. (Envestnet), an unaffiliated company, allows our Advisors to provide you an Advisor Managed Account by using services, tools, resources, and technology provided by Envestnet as part of the AdvisorEnterprise Platform. The services, tools, resources, and technology include, but are not limited to, the ability to produce an investment proposal, model building, overlay portfolio management, trading, research tools, and performance reporting. Through an AdvisorEnterprise Advisor Managed Account, your Advisor generally invests your assets, or delegates this responsibility to a Third-Party Model Provider, in individual equity or fixed income securities, as well as pooled investment vehicles such as mutual funds and/or ETFs available through the AdvisorEnterprise Platform.

You will pay more for this platform than you will for our other advisory platforms, which do not offer our Advisors the same resources and technology as AdvisorEnterprise. We earn more on assets managed on the AdvisorEnterprise Platform than through other available platforms which serves as an incentive to place your assets on this platform and is therefore a conflict of interest.

On the AdvisorEnterprise Platform, we offer two APM programs; APM-Tickets and APM-Wrap. They differ based on whether transaction charges are assessed separately (APM-Tickets) or are

included in the total client fee (APM-Wrap). We assess a Program Fee for accounts on the AdvisorEnterprise Platform. The Program Fee includes fees for Kestra AS and its affiliates' maintenance of the advisory platform.

The cost Kestra and its affiliates pay Envestnet is based on the number of accounts and the amount of client assets we have on the AdvisorEnterprise Platform. Our costs will decrease as our Advisors put more client assets on the AdvisorEnterprise Platform. When our costs decrease, the savings are not shared with you or our Advisors. As a result, we have an incentive to recommend the AdvisorEnterprise Platform and therefore a conflict of interest.

Horizon and AdvisorChoice Platforms

Both the Horizon and AdvisorChoice Platforms offer Advisor as Portfolio Manager (APM) programs. The Horizon Platform is provided through NFS. The AdvisorChoice Platform is provided through Kestra AS and available on NFS and other custodians such as Charles Schwab & Co. (Schwab) and Fidelity IWS. Through these platforms, our Advisors recommend and invest in individual equity or fixed income securities as well as pooled investment vehicles such as mutual funds and ETFs. The minimum account size for Horizon is \$5000 and the minimum account size for AdvisorChoice is \$10,000. We may waive the account minimum at our discretion for. The trading charges and administrative costs as well as the tools, technology, and services available to you and your Advisor will vary by custodian and platform, which means that your costs will vary for similar services.

THIRD PARTY PROVIDER ADVISORY PLATFORMS

Our Advisors can delegate investment advisory responsibilities or discretionary authority to a third party investment adviser through external advisory platforms that are offered at Kestra. Typically, you will enter into an agreement directly with that third party, which will outline, among other things, the fees and trading of your account by that investment adviser. Depending on the Advisory Program, you either pay us directly or pay one fee to the third party investment adviser, who will then remit a portion of the fee to us. You will receive a copy of both the third-party investment adviser's brochure as well as this document if we and the third party are acting as co-investment advisers. If investment advisory services are delegated to a third party investment adviser, your Advisor will monitor your assets and will provide services such as, but not limited to, helping you choose the third party investment adviser, reviewing your accounts, and assisting you with administrative functions related to your portfolio.

Our Advisor will conduct periodic reviews of your account(s) in the Advisory Program, monitor performance of the account, and be available to meet with you upon reasonable request. You and your Advisor should meet on a regular basis to review your financial situation, investment objectives and current holdings, and you should let your Advisor know about any changes to your financial goals or circumstances.

We make available certain Advisory Platforms offered through third-party advisors to assist our Advisors in providing you additional options for a Managed Account. Examples of Advisory

Platforms offered at Kestra AS include, but are not limited to, the following: Buckingham Strategic Partners, SEI and AssetMark.

SEI and AssetMark are described below.

SEI

We have entered into a co-advisory relationship with SEI Investments Management Corporation (SEI). In conjunction with SEI, we provide portfolio management services, selection of other investment advisers, mutual fund wrap services, access to separate account managers and alternative investments. SEI is both an investment adviser and broker-dealer. From the services and products SEI provides, our Advisor can customize the asset allocation and level of diversification, and determine the preferred investment vehicle or structure to create your account portfolio. There generally is no minimum investment for an account in the SEI Program.

Prior to opening an account with SEI, your Advisor will gather information through the use of SEI-developed questionnaires, software and other materials or through a personal interview. Your Advisor will also assist you in completing all necessary paperwork, including an agreement between you and SEI that grants SEI discretionary trading authority in your account. SEI has created asset allocation programs using mutual funds invested in stocks, bonds and cash to meet varying client objectives and needs for growth, income and capital preservation. Our Advisors will rely on the model investment portfolio designations and allocation recommendations provided by SEI. You may impose conditions in your investment guidelines or in written instructions to us that limit the discretionary authority implemented through the rebalancing program. In a select few instances, certain Advisors qualify for SEI's Enhanced Advisory Services. In these instances, your account will be managed as generally described under the **Advisor Managed Account** section above.

SEI Private Trust Company, an affiliate of SEI, acts as a custodian of all assets in the SEI Program and you will enter into a separate custodial agreement with the SEI Private Trust Company. SEI will execute transactions for your account pursuant to your agreement with them. Your Advisor will conduct periodic reviews of your account in the SEI Program and monitor the performance of the account.

We also have the ability to act in a referral capacity and refer institutional clients to SEI. Please see the **THIRD-PARTY REFERRALS** section below for more details regarding the services we provide and how we are compensated in such an arrangement.

AssetMark

We have entered into a co-advisory relationship with AssetMark, Inc. (AssetMark). AssetMark is a registered investment adviser with the Securities and Exchange Commission (SEC) and provides consulting services and AssetMark Platform access to your Advisor.

AssetMark makes a number of different Solution Types available to clients through the Platform. Account minimums range from \$10,000 to \$1,000,000. We or AssetMark may waive the account minimum at our discretion. The Solution Types consist of:

1. Guided Portfolios
2. Single Strategy Portfolios
3. Separately Managed Accounts
4. Unified Managed Accounts
5. Multiple Strategy Accounts

Your investments made through the Platform are held in your name by a custodian you select, pursuant to a custody agreement directly between the you and the custodian. Your account will be held in custody at one of the following firms: Schwab Institutional, Pershing Advisor Solutions, AssetMark Trust or Fidelity Brokerage Services.

AssetMark makes available periodic reports to your Advisor for use should your Advisor opt to do so. Your Advisor will conduct periodic reviews of your accounts on the AssetMark Program and monitor performance of those accounts.

We also have the ability to act in a referral capacity and refer clients to AssetMark. Please see the **THIRD-PARTY REFERRALS** section below for more details regarding the services we provide and how we are compensated in such an arrangement.

LEGACY OFFERINGS

We may enter, or previously have entered, into advisory relationships, programs and platforms offered through third-party investment advisers either as legacy offerings for our firm or as an accommodation to an Advisor who joins our company. These relationships are usually limited to certain Advisors and their existing clients. Details and descriptions of these programs have been or will be given to you by us, your Advisor and/or the Advisor's prior firm.

THIRD-PARTY REFERRALS

We have entered into agreements with various third-party investment advisers that participate in, manage, or sponsor different types of money management services and investment advisory programs. Depending on our relationship with the third party, our Advisors may refer clients for such third parties, in which case we will not provide investment advice or have discretionary authority over your assets. These referral arrangements are structured in accordance with the marketing rule 206(4)-1 under the Advisers Act which requires, among other things, that we disclose to you the compensation we will receive for referring you to a third-party adviser.

Where we act solely as a referrer, you will not enter into an agreement directly with us and we are not responsible for the services provided by the third-party investment adviser. In such an arrangement, you establish a direct relationship with the third-party investment adviser, and we will receive a solicitation fee from the adviser based on a percentage of the advisory fee they charge you. The amount of the fee varies by the solicitation arrangement with a maximum fee of 2.5%. The referrer disclosure you receive when you establish an account with the third-party adviser will specify the total fee you will be charged, and what portion of that fee is payable to Kestra AS. You should read the third-party adviser's brochure and any compensation disclosure statements provided in connection with these referral arrangements for information regarding the services of the third-party adviser and applicable fees and charges.

Private Fund Advisers

Our affiliated broker-dealer, Kestra IS, has entered into agreements with various private funds (“Private Funds”) and acts as placement agent in connection with the offering and sale of securities of such funds to current and prospective clients. While we and Kestra IS are not current clients and are not investors of the Private Funds, it is possible that we or one or more of our affiliates or our or their employees or agents may be, or may subsequently become, a client of or investors in the Private Funds.

Kestra IS and our Advisors receive cash compensation from the sponsors of the Private Funds for activities as placement agent. We and our affiliates may have additional relationships with the Private Fund sponsor or other investment vehicles managed by the Private Fund sponsor.

The payment of cash compensation to our affiliate and Advisor, and any additional relationships that the placement agent or its affiliates may have with the Private Fund or its sponsor or other investment vehicles managed by the fund’s sponsor creates a conflict of interest for Kestra AS and its Advisor since we may receive compensation in addition to advisory fees in connection with the recommendation of a Private Fund.

Affiliated funds of Warburg Pincus, LLC (“Warburg Pincus”) own a majority interest of the ultimate parent company of Kestra Advisory Services, LLC (“KAS”), Kestra Private Wealth Services, LLC (“KPWS”) and Kestra Investment Services, LLC (together with KAS and KPWS, “Kestra”). Kestra makes available investment funds affiliated with Warburg Pincus. The recommendation of such a fund creates a conflict of interest since the holder of a majority interest in Kestra’s ultimate parent company would directly or indirectly benefit from an investment in the fund.

In addition, an affiliate of Warburg Pincus owns a financial interest in the investment adviser to certain funds available through the alternative investment platform, iCapital, that Kestra uses to make such investments available. The recommendation of such a fund creates a conflict of interest since the holder of a majority interest in Kestra’s ultimate parent company, Warburg Pincus, would directly or indirectly benefit from an investment in the fund.

FINANCIAL PLANNING & FINANCIAL CONSULTING

Many of our Advisors perform financial planning, business consulting, estate planning, and similar securities investment consulting services for you. In performing financial planning or consulting services, the Advisor typically reviews your overall financial circumstances, such as your tax status, insurance needs, overall debt, business ventures, retirement savings and current investments. An Advisor’s services may also focus on only one or several of these areas, depending on your specific engagement. You will enter into an agreement with us setting forth the services our Advisor will provide and other terms and conditions of the relationship, such as fees for our services. You are under no obligation to accept any of the recommendations from an Advisor pursuant to a financial planning or consulting engagement, and you retain discretion and responsibility for implementing the recommendations in the absence of a contract for such additional services.

INDIVIDUAL RETIREMENT PLANNING SERVICES

Our Advisors also provide services in connection with clients' retirement accounts, such as individual retirement accounts (IRAs). Our services to IRA clients include those described above.

If you are participating in an employer sponsored retirement plan (such as 401(k) plan) and are no longer with that employer, you typically have four options (and may engage in a combination of these options): i) leave the money in the former employer's plan, if permitted, ii) roll over the assets to a new employer's plan, if one is available and rollovers are permitted, iii) rollover to an IRA, or iv) cash out the account value (which could, depending on your age, result in adverse tax consequences). To the extent you are a retirement plan client, please refer to our Retirement Plan Brochure.

Our Advisors may recommend that you roll over plan assets to an IRA under our management. As a result, we generally earn an asset-based fee. NFS assesses IRA accounts an annual charge of \$35, which is shared with Kestra IS in an increasing proportion as the number of total accounts custodied at NFS increases. This payment arrangement NFS has with Kestra IS serves as an incentive to open IRA accounts with NFS. However, no portion of this fee is shared with our Advisors.

If you leave plan assets with your old employer's plan or roll the assets to a plan sponsored by a new employer, we cannot manage the assets and will earn no compensation unless we are engaged to monitor or consult on your assets in the retirement plan. We have a financial incentive to encourage you to roll plan assets into an IRA that we will manage.

There are various factors you should consider before rolling over assets from a retirement plan to an IRA. These factors include: 1) the investment options available in the plan versus the investment options available in an IRA; 2) fees and expenses in the plan versus the fees and expenses in an IRA; 3) the services and responsiveness of the plan's investment professionals versus ours; 4) strategies for the protection of assets from creditors and legal judgments; 5) required minimum distributions and age considerations; and 6) employer stock tax consequences, if any. No client is under any obligation to roll over plan assets to an IRA managed by us or to engage our Advisors to monitor and/or consult on an account maintained in an existing retirement plan. A recommendation to roll assets out of an employer-sponsored plan into an IRA will most likely result in more expenses and charges than if the assets were to remain in the plan.

QUALIFIED AND NON-QUALIFIED RETIREMENT PLAN SERVICES

Please see our Retirement Plan Brochure for more information on retirement plan services.

OTHER INFORMATION ABOUT OUR ADVISORY SERVICES

In some instances, we and our Advisors may independently consider a security a client is trying to sell appropriate for another one of our clients. We and our Advisors advise numerous clients with similar or identical investment objectives or advise clients with different objectives that may trade in the same securities. Despite such similarities, portfolio recommendations relating to your investments and the performance resulting from such recommendations will differ from client to client. We will not necessarily recommend, purchase, or sell the same securities at the same time

or in the same amounts for all eligible clients. In some cases, such as the recommendations of private placements or oversubscribed public offerings, due to the availability of, or qualifications necessary to buy the investment, it may not be possible or feasible for you to buy a certain security. Therefore, you will not necessarily be able to participate in the same investment opportunities or participate on the same basis with our other clients. To the extent our Advisors have investment discretion over your account, it is our policy that the Advisor allocate, to the extent practicable, investment opportunities on a basis that the Advisor in good faith believes is fair and equitable to each client over time.

We utilize BTS, an unaffiliated third party strategist, to provide investment subadvisory services as a model signal provider to a limited number of Advisors who utilize that data to inform their own asset allocation models.

You should promptly notify us if there is a change in your financial circumstances or investment objectives so we may confirm any prior recommendations remain appropriate going forward or advise you as to any proposed changes.

As of December 31, 2023, we managed approximately \$48,324,319,629 in assets for approximately 140,425 clients. Approximately \$35,495,163,831 is managed on a discretionary basis, and approximately \$12,829,155,798 is managed on a non-discretionary basis.

Fees and Compensation

GENERAL INFORMATION ON OUR FEES

Our asset-based fees range up to 2.5 percent of assets under management and are determined by your Advisor based upon a variety of factors, such as the value of your assets under management, your account registration type (e.g., retirement), the nature of services we provide to you, the platform(s) and the program(s) you or your Advisor choose and the current market and pricing for similar services. You may pay a higher or lower fee than other clients pay for similar services.

You pay an asset-based fee typically on a quarterly basis in advance or arrears, as determined between you and your Advisor. All fees are negotiable, subject to the maximum amount set forth above. We may waive or charge a lesser fee or may charge a flat fee for our services. The advisory fees we charge may be higher or lower than those charged by other investment advisers for comparable services. The fees that we charge to manage assets in your account may be more than the amount you would pay us or our affiliated broker-dealer to buy or sell securities on a commission basis in a non-managed account.

We pay our Advisors a percentage of the fees we receive. Our affiliate broker-dealer Kestra IS pays its registered representatives a percentage of the commissions it receives. Our Advisors receive a higher percentage of the fees we receive as their production of fees and their production of commissions in their separate capacity as a registered representative of Kestra IS increases. We will also aggregate the production of several Advisors in the same branch or firm which can

allow these Advisors to reach higher payouts more quickly than if the payout were based on individual production. The practice of providing a tiered payout and aggregation of production creates a conflict of interest as your Advisor is incentivized to increase their production with us and our affiliate to obtain higher compensation percentages and additional compensation. In addition, certain Advisors that meet internal criteria that include production receive additional benefits such as practice management consulting or producer trips.

When an Advisor terminates their relationship with us, we will notify you and will resign as fiduciary for all advisor as portfolio manager accounts. This action will make your account a commissionable account and you will be charged standard fees and commissions for transactions and other services. The fees billed to your account for advisory services will stop once the account has been converted. In the event your account has been billed in advance, and your advisory agreement is terminated prior to the end of the term for which fees have been collected, we will return any unearned fees to you. Where your assets are invested with Third Party Strategists, Third Party Asset Management Platforms, or Separately Managed Accounts, your account will continue to be managed and billed advisory fees. We will retain those billed fees previously allocated to your Advisor.

An overview of the fee breakdown for managed accounts is provided below:

Advisor as Portfolio Manager Tickets on AdvisorEnterprise (APM-Tickets)

Maximum Client Fee: 2.5%

Ticket charges apply.

A Program Fee ranging from 0.14% to .02% is deducted from the Client Fee you negotiate with your advisor. This payment structure incentivizes your advisor to increase the Client Fee assessed by an amount sufficient to offset the Program Fee, which is conflict of interest.

Advisor as Portfolio Manager Wrap on AdvisorEnterprise (APM-Wrap)

Maximum Client Fee: 2.5%

Ticket charges do not apply.

A Program Fee ranging from 0.19% to 0.02% is deducted from the Client Fee you negotiate with your advisor. This payment structure incentivizes your advisor to increase the Client Fee assessed by an amount sufficient to offset the Program Fee, which is a conflict of interest.

Advisor as Portfolio Manager (APM) on Horizon or Advisor Choice

Maximum Client Fee: 2.5%

Ticket charges apply. Ticket charges are typically higher than those on our other platforms.

A Program Fee ranging 0.00% to 0.05% is deducted from the Client Fee you negotiate with your advisor. This payment structure incentivizes your advisor to increase the Client Fee assessed by an amount sufficient to offset the Program Fee, which is a conflict of interest.

Fund Strategist Portfolio (FSP) Wrap on AdvisorEnterprise

Maximum Client Fee: 2.5%

Manager Fee: Ranges from 0.45% to .02%

Custom FSP arrangements will typically fall out of the above quoted range.

Manager Fees in the FSP Program will vary by manager and model selected.

A Program Fee ranging from 0.26% to 0.05% is deducted from the Advisor Fee you negotiate with your advisor. This payment structure incentivizes your advisor to increase the Advisor Fee assessed by an amount sufficient to offset the Program Fee, which is a conflict of interest.

Separately Managed Accounts Wrap (SMA) on AdvisorEnterprise

Maximum Client Fee: 2.5%

Manager Fee: Ranges 0.77%% to .02%

Custom SMA arrangements will typically fall out of the above quoted range

Manager fees in the SMA Program will vary by manager and model selected.

A Program Fee ranging from 0.26 to 0.05% is deducted from the Advisor Fee you negotiate with your advisor. This payment structure incentivizes your advisor to increase the Advisor Fee assessed by an amount sufficient to offset the Program Fee, which is a conflict of interest.

Unified Managed Account (UMA) Wrap on AdvisorEnterprise

Maximum Client Fee: 2.5%

Manager Fee: Ranges 0.77% to .02%

Manager Fees in the UMA Program will vary by manager and model selected.

Custom pricing arrangements will typically fall out of the above quoted range.

A Program Fee ranging from 0.26 to 0.05% is deducted from the Advisor Fee you negotiate with your Advisor. This payment structure incentivizes your advisor to increase the Advisor Fee assessed by an amount sufficient to offset the Program Fee, which is a conflict of interest.

ADVISORY PROGRAM FEES

SEI

SEI offers the following advisory services or solution types to clients:

- SEI Target Allocation Solutions: 0 to 45 bps
- SEI Objective Based Solutions: 0 to 45 bps
- Separately Managed Accounts: 18 bps to 125 bps
- Custom High Net Worth Solutions: 55 bps to 105 bps

Maximum Client Fee: 2.5%

AssetMark

AssetMark offers the following advisory services or solution types to clients:

- Guided portfolios range from 0bps to 65bps
- Single strategy solution types range from 0bps to 110bps
- Separately Managed Accounts range from 70 bps to 80 bps
- Unified managed accounts range from 65bps to 110bps
- Multiple Strategy Accounts range from 25 bps to 110 bps

Maximum Client Fee: 2.5%

FEES FOR ADVISOR MANAGED ACCOUNTS

Transaction Charges

Your Advisor Managed Account is assessed transaction charges related to activity in your account by our affiliated broker-dealer, Kestra IS, in accordance with its current transaction fee schedule, which your Advisor will provide upon request. Transaction charges are customizable and negotiable and may be waived or raised at any time by Kestra IS in accordance with its brokerage agreement with you. Kestra IS typically does not charge you commissions for transactions in mutual funds; however, there is typically a transaction charge assessed on such transactions. Please see the Brokerage Practices section for more information. Your Advisor may opt to absorb the transaction charges associated with your account, which creates a conflict of interest as it lowers the compensation your Advisor receives, and thus incentivizes less frequent trading to minimize the trading costs your Advisor absorbs.

Your Advisor has the ability to negotiate certain account fees, including transaction costs, when recommending third party custodial and asset management platforms. Such negotiation results in different platform costs being charged for similar services on different management platforms. Certain mutual funds pay our affiliated broker-dealer, Kestra IS, various service fees or 12b-1 distribution fees, and we credit an amount equal to those fees back to you, except for 12b-1 fees our affiliated broker-dealer receives in connection with sweep money market mutual funds, which our broker-dealer retains. This creates an incentive, and thus a conflict of interest, for Kestra IS or

us to recommend money market mutual funds as sweep account options for the brokerage account, because it does not credit such fees back to you.

Kestra IS charges its customers more for transaction charges and certain other costs than the amount it pays to its clearing firm, NFS. Please see the Brokerage Practices section for more information.

FEES FOR ADVISORY PLATFORMS

AdvisorEnterprise Platform

The annual Client Fee for AdvisorEnterprise Advisor as Portfolio Manager (APM) Accounts ranges up to 2.5 percent of assets under management, and is based upon a variety of factors, such as, but not limited to, account size, account type (e.g., retirement) and types of investments in your account. All fees are negotiable, subject to the maximum amount set forth above. Asset-based fees are typically assessed quarterly in advance based upon the fair market value of your assets on the last business day of the preceding quarter. We may waive or charge clients a lesser fee. Your APM-Tickets Account will also be assessed transaction charges related to activity in the account. Your Advisor may opt to absorb the transaction charges associated with your account, which creates a conflict of interest as it lowers the compensation your Advisor receives, and thus incentivizes less frequent trading to minimize the trading costs your Advisor absorbs. Please see the **Brokerage Practices** section for more information.

In both APM programs on the AdvisorEnterprise Platform, you will pay a Client Fee, a portion of which we collect in connection with the investment advice provided by your Advisor (Advisor Fee), and the remainder of which is retained by Kestra AS in connection with the maintenance of our advisory platform (Program Fee).

For APM-Tickets Program accounts, you will pay transaction costs associated with trades in your account and other applicable broker-dealer charges as detailed in the fee schedule of our affiliated broker-dealer. You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates.

For APM Wrap Program accounts, you will not be responsible for paying transaction charges to our affiliated broker-dealer but will be responsible for paying any account maintenance charges as detailed in the fee schedule of our affiliated broker-dealer. You will also pay account maintenance costs, which are documented in the NFS Client Fee Disclosure document. You are also responsible for paying any charges imposed by the issuers of investments in your account or their affiliates.

Regardless of what our Advisor determines as an appropriate Client Fee, your AdvisorEnterprise APM Account is still subject to a Minimum Annual Account Fee. The Minimum Annual Account Fee varies by program on AdvisorEnterprise. Kestra AS (the sponsor of this program) assesses the fee based on the size of the account.

If the Program Fee does not meet at least the minimums of \$60 for APM accounts with tickets

(APM-Tickets), \$95 for APM accounts with wrap (APM-Wrap), \$75 for Fund Strategist Portfolios (FSP) and \$350 for Separately Managed Accounts (SMA) and Unified Managed Accounts a Minimum Annual Account Fee will be assessed to your Advisor.

If the Program Fee does not meet at least the minimums of \$125 for Annuity accounts, you will be assessed the difference between the fee generated from the account and the specified minimum Program Fee.

Your Advisor receives an economic benefit because of your participation in the AdvisorEnterprise Platform. The amount of this economic benefit is generally more than what your Advisor would receive if you participated in our other platforms or programs or separately paid for investment advice, brokerage, and other services. An Advisor receives additional economic benefit as a result of placing business with us in the form of reduced charges for the platforms and services we make available to the Advisor. For example, the Program Fee we charge as part of your Client Fee is reduced based on the amount of assets placed on the AdvisorEnterprise and Horizon platforms. As the Program Fee is reduced, the Advisor retains a greater portion of your Client Fee. An Advisor therefore has a financial incentive to recommend the AdvisorEnterprise Program over other platforms or services we provide, which is a conflict of interest. The reduced charges and additional compensation is generally based on the aggregate amount of assets of the Advisor's clients utilizing platforms and services we and our affiliates provide or other factors in our discretion.

Horizon or AdvisorChoice Platform

The annual Client Fee for Horizon and AdvisorChoice Managed Accounts ranges up to 2.5 percent of assets under management. Horizon and AdvisorChoice Managed Account are subject to a Program Fee of 0.05 percent; however we may, at our discretion, waive or discount this charge. Your Advisor is incentivized to increase the cost of the advisory services you are charged to offset the impact of the Program Fee. Your Advisor is also incentivized to place your account on the AdvisorEnterprise Platform to avoid incurring the Program Fee. Asset-based fees for a Horizon or AdvisorChoice Managed Account are typically assessed quarterly in advance based upon the average daily balance of your assets over the preceding quarter.

Your Horizon or AdvisorChoice Managed Account will also be assessed transaction charges, which your Advisor may opt, at their discretion, to absorb. If your Advisor usually absorbs transaction charges, your Advisor has a conflict of interest and is incentivized to place fewer trades in your account than may otherwise be placed if trade costs were nonexistent in order to reduce the amount of trading expenses that your Advisor absorbs.

Your Advisor receives compensation as a result of your participation in these platforms. The amount of this compensation will generally be more than what your Advisor would receive if you participated in our other investment advisory programs or separately paid for investment advice, brokerage and other services. Your Advisor therefore has a financial incentive to recommend these platforms over other programs or services we offer.

FEES FOR THIRD PARTY ADVISORY PROGRAMS

SEI

You will pay an annual fee for the SEI Program, which ranges up to 2.5 percent of assets under management. Your Advisor can negotiate the fee with you and SEI based upon a variety of factors, such as account size, account type (e.g., retirement) and types of investments within your account. The SEI Trust Company is responsible for providing you with statements, at least quarterly, showing all the assets and activity in your Advisor Managed Account with the SEI Program. These statements include any fees or charges assessed in the quarter. SEI Trust Company deducts fees from your account in accordance with your agreement with SEI and requirements of applicable law.

AssetMark

You will pay fees in connection with an Advisor Managed Account with the AssetMark Program based upon the solution you and your Advisor choose as referenced below. The fees applicable to each Account on the Platform include:

1. Financial Advisor Fee (this is negotiated with your advisor and will not exceed 2.5%)
2. Platform Fee, which includes any Strategist or Manager Fee, as applicable, and most custody fees.
3. Initial Consulting Fees (this is negotiated with your Advisor at the outset of your engagement);

Other fees for special services are also charged. The Fees applicable to the Account will be set forth in the Client Billing Authorization. You should consider all applicable fees prior to engaging your Advisor for such services.

<u>Solution</u>	<u>Minimum</u>	<u>Maximum</u>
Guided Portfolios	0.00%	2.50%
Single Strategy Solution	0.00%	2.50%
Separately Managed Accounts	0.70%	2.50%
Unified Managed Accounts	0.65%	2.50%
Multiple Strategy Accounts	0.25 %	2.50%

The applicable custodian will deduct fees from your account in accordance with your agreement with AssetMark, your custodial agreement and applicable law.

With respect to the AssetMark Program, some of our Advisors are entitled to receive a reimbursement from AssetMark for qualified marketing and/or business development expenses based on the total assets invested in the AssetMark program. Kestra AS limits the reimbursement to \$5,000 per Advisor per vendor regardless of whether the advisor qualifies for additional reimbursement funds above that amount. This additional financial benefit is not shared with you and creates a conflict of interest due to the incentive it creates for your Advisor to utilize the AssetMark Program.

FEES FOR FINANCIAL PLANNING AND FINANCIAL CONSULTING

Our Advisors charge fees for financial planning and financial consulting on an hourly, a percentage

of assets, or a negotiated flat fee basis. These fees will vary based on the services provided and are negotiable. A flat fee charge may result in a total fee that is, on a percentage basis, greater than our typical maximum asset-based fee of 2.5 percent.

You may purchase any recommended security or investment product from a broker-dealer that is not affiliated with us or our Advisor. Should you choose to utilize your Advisor to implement the recommendations in your financial plan, your Advisor may act as an asset manager for your portfolio and receive advisory fees or may act as a broker and purchase securities for you on a commission basis, or some combination of the two. In that event, our affiliated broker-dealer, Kestra IS, will receive compensation from the sale of a security or investment products recommended to you and purchased through Kestra IS. Please refer to the **Brokerage Practices** section for additional information.

OTHER INFORMATION ON FEES AND COMPENSATION

You may pay advisory fees to us by check, wire, or by authorizing the deduction of fees from your or another authorized account. If you authorize us to deduct fees from your account, you are responsible for fees, charges and other costs associated with the fee deduction, as well any tax impact associated with the deduction. When fees are deducted from accounts, the Advisor or account custodian will send you information reflecting the amount of fees deducted. You will receive a statement at least quarterly from your account custodian, showing all amounts disbursed from your account, including the advisory fees paid to us.

Our Advisors offer a wide variety of securities products and services since we are affiliated with a broker-dealer and insurance agency. Advisors are free to choose the products and services they make available to clients subject to applicable rules of suitability, appropriate licensing, and our policies and procedures. Some Advisors may not consider or be able to offer all of the products and services available through our company or our affiliates. In addition, the commissions, fees and other forms of compensation paid in connection with the purchase or sale of products and services vary. Accordingly, Advisors have a conflict of interest to the extent they recommend products or services that pay more compensation than other similar products or services available through us or our affiliates.

Although we are affiliated with an insurance agency, we do not sell fixed or general account life insurance products or annuities other than certain fixed indexed annuities and broker dealer offered fixed annuities available through our affiliated broker-dealer. Some of our Advisors, in their individual capacities as insurance agents may recommend you purchase fixed or general account insurance products or annuities on a commission basis. We do not oversee and are not responsible for these insurance sales, however, we do refer our Advisors to certain third-party broker general agencies (BGAs) and our affiliated insurance agencies receive compensation from the BGAs if our Advisors use the services of these BGAs. Our Advisors are not required to utilize the services of any BGA to whom we refer business.

In their capacity as a registered representative of our affiliated broker-dealer, our Advisors recommend various third-party investment vehicles that are subject to initial and ongoing expenses and fees, such as sales loads, servicing fees and management fees. Examples of these

collective investments and financial products are mutual funds, variable insurance products, real estate investment trusts (known as REITs), partnerships that invest in securities, or hedge funds. The initial and ongoing expenses and fees of these investment vehicles are disclosed in the applicable offering document of the investment and are payable by you in addition to any fee we and our Advisors charge. If you purchased investments through another firm and transfer them to an account with us, you will pay ongoing fees and expenses to the investment product sponsor, or its affiliates, in addition to the fees we charge. For example, if you purchase mutual funds through another company and subsequently transfer those mutual funds to an advisory account with us, you will pay ongoing fees and expenses to the mutual fund company in addition to the fees we charge. In addition, if you purchased an investment on a commission basis, your Advisor may, after a period of time, assess an advisory fee as well. Because advisory accounts are subject to ongoing advisory fees, the cost of owning an illiquid asset in an advisory account will be higher than if the asset were purchased on a commission basis (either directly from the product sponsor or through a retail brokerage account) and held in a non-advisory account. Please discuss with your advisor the options available to purchase and hold these or other products.

If you choose to purchase an alternative investment on a commission basis, we will not charge an advisory fee on the value of that investment. Should your alternative investment be converted by the issuer to an advisory share class, the value of that investment will be subject to an advisory fee. Note that you will likely pay more in advisory fees versus up-front commissions over the typical holding period of these investments to the extent they are subject to an advisory fee.

NAV for illiquid alternative investments in your advisory account may be calculated as often as quarterly but no less frequently than annually. In the case where an alternative investment is valued annually, the underlying value of the asset may fluctuate, but the NAV will continue to serve as the basis for the AUM calculation. This could result in you experiencing higher or lower fees than if the NAV were calculated more frequently.

Subject to the capabilities of the account custodian, you may direct certain investments to be held within your account that are not to be included in the management of your portfolio. If you identify such assets in advance, we will not manage those assets or include them for purposes of calculating your advisory fee; however, you still may be subject to applicable platform or program fees on such assets. In addition, we may choose not to manage or charge advisory fees on assets held in an advisory account that we determine are not suitable for management by Kestra AS based on the nature or liquidity of the asset.

If you choose to authorize Kestra AS to use margin in your account, our fees would increase as the market value of your investment portfolio increases. Our offer to provide margin as a strategy creates a conflict of interest since we stand to receive increased advisory fees and our affiliate will receive margin revenue should you choose to employ a margin loan.

We make available third parties for our Advisors to utilize in providing you the services described in this document, and such third parties may compensate us for training, marketing efforts, staffing and ongoing education of Advisors related to such third parties. This financial and non-financial support incentivizes us and your Advisor to utilize the services of these third parties, which is a conflict of interest. Please refer to the **Client Referrals and Other Compensation** section below.

Some of the third-party money managers and strategists we make available can be accessed through different advisory platforms and programs we offer, and your advisory fee will vary depending on the platform or program selected to access the manager or strategist. While we have an incentive to recommend a higher priced platform because we earn additional advisory fees, the cost of a particular platform or program used to access a specified manager or strategist is only one component of the overall cost and, therefore, the total fees you pay could be higher or lower in the aggregate. You should discuss with your Advisor the platform and program pricing relative to a specific manager or strategist for additional details or contact our Chief Compliance Officer for additional information.

Some of our Advisors participate in incentive trips and receive other forms of non-cash compensation based on the amount of their sales and services through Kestra IS and Kestra AS, non-affiliated marketing groups, or product manufacturers. To the extent your Advisor participates in an incentive trip or receives other forms of non-cash compensation, a conflict of interest exists in connection with the Advisor's recommendation of products and services for which they receive these additional economic benefits. Kestra IS allows representatives to receive marketing reimbursements from product providers to help defray these expenses. There is no requirement or expectation that representatives refer clients to or place assets with such providers. Please contact our Chief Compliance Officer for additional information.

To the extent an Advisor has waived any commission from the sale of a security or investment product, a third party may still provide additional compensation to us. This third-party compensation creates a conflict of interest since it would result in increased compensation for us or our affiliates.

Kestra charges its Advisors for certain products and services, such as access to eMoney reporting. Advisors may charge you more for these products and services than they pay to Kestra, which is sometimes called a "mark-up". Mark-ups vary by product and the type of service provided. This practice creates a conflict of interest for your Advisor as there is a financial incentive to recommend products and services that generate additional compensation.

We or our affiliates utilize third parties to fulfill services we provide or make available to you such as printing, mailing, planning software, and trading. Through enterprise level pricing or mark-ups, we or our affiliates often charge you more than our actual cost for such services. To the extent our costs are passed on to our Advisors, our Advisors may factor these costs into the advisory fees you are charged.

Performance-based Fees and Compensation

We and our Advisors do not charge performance-based fees.

Methods of Analysis, Investment Strategies and Risk of Loss

We analyze investment programs and products of third-party managers by reviewing the background of persons associated with the manager, the manager's investment process, investment philosophy, methodology used within the program, and disclosure documents related to the program.

Advisors at times perform their own research on securities and programs through third-party resources available to the public, and employ various forms of analysis such as charting, fundamental analysis, technical analysis and cyclical analysis. Sources of information we and our Advisors use include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission and company press releases. Performance reports vary and may use a Modified Dietz, Money Weighted Rate of Return, Time Weighted Rate of Return, or Internal Rate of Return for performance calculations.

While we do not have a firm-wide investment strategy, many of our Advisors recommend various forms of strategic asset allocation. An investment strategy is based upon objectives you define in consultation with your Advisor. Other strategies an Advisor may use include long-term buy and hold, short-term purchases, trading, short sales, margin transactions and option writing (including covered options, uncovered options or spreading strategies).

We treat cash as an asset class. As such, unless determined to the contrary by you or Kestra, all cash positions (money markets, etc.) shall continue to be included as part of assets under management for purposes of calculating Kestra's advisory fee. At any specific point in time, depending upon perceived or anticipated market conditions/events (there being no guarantee that such anticipated market conditions/events will occur), Kestra representatives may recommend maintaining cash positions for defensive purposes. In addition, while assets are maintained in cash, such amounts could miss market advances. Depending upon current yields, at any point in time, Kestra's advisory fee could exceed the interest paid by the client's money market fund.

A margin transaction occurs when you borrow against your invested assets to make additional investments. The securities used as collateral on the margin loan are subject to sale if capital requirements are not met. Because of the effect of the leverage of borrowing, gains or losses from the security you purchased on margin can be magnified.

Any investment or investment strategy involves risk of loss you should be prepared to bear. Examples of risks you could face are:

- *Interest rate Risk:* Fluctuations in interest rates generally cause investment values to fluctuate. For example, market values of bonds typically decline when interest rates rise, because the rising rate makes the existing bond yields less attractive.
- *Market Risk:* External factors independent of a security's particular underlying circumstances may impact its value. The value of a security, bond or mutual fund may drop in reaction to tangible and intangible events and conditions, such as a political or social event or an economic condition.
- *Inflation Risk:* Inflation means a dollar today buys more than a dollar next year. When inflation is present, your purchasing power typically decreases at the rate of inflation.

- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. Also known as exchange rate risk, these risks may be present in international mutual funds for example.
- **Reinvestment Risk:** The risk that future proceeds from investments may be reinvested at a potentially lower rate of return is reinvestment risk. This risk primarily relates to fixed income securities.
- **Business Risk:** Risks associated with a particular industry or a specific company may impact the value of investments. For example, oil-drilling companies typically have more business risk than electric companies since they depend on finding oil and then refining it efficiently before they generate a profit. An electric company generates income from customers who buy electricity regardless of economic conditions.
- **Liquidity Risk:** Liquidity means the ability to readily convert an investment into cash. Assets with many purchasers are generally more liquid. For example, Treasury Bills are highly liquid, while real estate properties are less so.
- **Financial Risk:** A company with excessive borrowing or that takes significant business risks to generate profit is typically at a greater risk of financial difficulty or failure.
- **Digital Currency Risk.** Investments in digital or virtual currency or securities primarily holding such currency can be volatile and subject to a high degree of risk. The risk of loss for individual investors who participate in transactions involving digital assets is significant. The only money you should put at risk with this or any other speculative investment is money you can afford to lose entirely.

Voting Client Securities

We do not, nor do our Advisors, vote proxies for any clients.

Item 7: Client Information Provided to Portfolio Managers

Your information is forwarded to Envestnet so that it may be sent along to any appropriate third-party strategist or third-party manager to perform the services of the AdvisorEnterprise Program described above.

You should be aware that for some of the services outlined above, National Financial may transmit certain of your personal account information to a third-party vendor, Checkfree Investment Services, a division of Checkfree Services Corporation (Checkfree), solely for the purpose of managing your account. The type of information that may be submitted includes (i) account detail information such as your name, address and Social Security number, (ii) account balances such as margin and core cash balances, (iii) account positions such as securities held and number of shares; and (iv) account transactions such as buys, sells and dividends. Checkfree, the third-party vendor, is storing such personal information at their site for fulfilling its obligation to us.

Item 8: Client Contact with Portfolio Managers

You may be restricted in your ability to directly contact and consult with the strategists, portfolio

managers and Envestnet regarding your account and participation in the AdvisorEnterprise Program. However, our Advisors are available to address any questions, issues or concerns regarding the strategists and their models or portfolio managers and their recommendations.

Item 9: Additional Information

Disciplinary History

We have periodically been subject to administrative sanctions by state and self-regulatory agencies. A summary of the events is provided below for your reference. Prior to 4/7/2016 we were a dual registrant with our affiliated broker-dealer, Kestra IS (formerly known as NFP Advisor Services, LLC and NFP Securities, Inc.) and a summary of administrative actions applicable to Kestra AS and Kestra IS during the time we were dually registered follows. Additional detail regarding Kestra IS matters is available through FINRA's Broker/Check system.

Kestra AS:

On July 9, 2021, Kestra AS entered into a settlement with the SEC related to compensation paid to its predecessor firm and affiliated broker-dealer that (i) created conflicts of interest which were not accompanied by adequate disclosure and (ii) resulted in a violation of the firm's obligation to seek best execution, in violation of Sections 206(2) and 206(4) of the Advisers Act and Rule 206(4)-7 thereunder. In particular, the affiliated broker-dealer received revenue sharing payments from an unaffiliated clearing broker-dealer as a result of Kestra AS's advisory clients' investments in certain mutual funds. Certain of the mutual funds that paid revenue sharing were more expensive than lower-cost options available to clients (including lower-cost fund share classes that did not result in any revenue sharing). In addition, the affiliated broker-dealer received compensation resulting from transaction fees charged on mutual fund trades and non-transaction fees for certain services provided to Kestra AS's advisory clients, which were greater than the amount charged to the affiliated broker-dealer by the clearing broker-dealer for those trades and services. The SEC also found that Kestra AS failed to adopt and implement adequate written compliance policies and procedures in connection with the foregoing practices. Without admitting or denying the underlying findings, Kestra AS offered to accept a censure, an order to cease and desist from committing or causing such violations and to pay eligible clients an estimated \$7,229,802 in disgorgement, \$1,273,370 in interest and a penalty of \$1,500,000.

On March 11, 2019, Kestra AS was subject to an order issued by the SEC related to the recommendation of mutual fund share classes generating compensation to Kestra AS's affiliated broker-dealer without adequate disclosure of such compensation and the additional expenses associated with the share classes in violation of Sections 206(2) and 207 of the Advisers Act. Without admitting or denying the underlying findings, Kestra AS offered to accept a censure and pay eligible customers an estimated \$5,628,383.60 in disgorgement and \$567,895.75 in interest.

On July 19, 2016, Kestra AS agreed to pay \$100,000 to the Commonwealth of Massachusetts for failing to register its investment adviser representatives who had a place of business in

Massachusetts and ensure that its representatives were properly registered with the Commonwealth prior to providing investment advisory services.

Kestra IS:

On July 16, 2015, Kestra IS agreed to pay FINRA a fine of \$500,000 in connection with the supervision of private securities transactions of registered representatives registered with third party registered investment advisers, preservation of securities-related email, approving and preserving certain advertising materials, and updating Form U4 for certain representatives in a timely fashion.

Other Financial Industry Activities and Affiliations

Kestra IS and Kestra AS are affiliated entities and subsidiaries of Kestra Financial, Inc. Kestra AS utilizes Kestra IS as its primary broker-dealer, and there are inherent conflicts of interest as a result of this arrangement. The conflicts relative to this affiliation are described generally in this section and detailed in the Brokerage Practices section below.

If you choose to purchase “offered” securities through Kestra IS, the broker-dealer will receive commissions from the issuer (such as a mutual fund or insurance company) or its affiliate, or will charge brokerage commissions, markups or markdowns to effect a transaction in stocks, bonds or other traded securities. A portion of the commissions, markups or markdowns will be paid to the applicable Advisor. Brokerage commissions, markups and markdowns charged by Kestra IS may be higher or lower than those charged by other broker-dealers. Commissions paid to Kestra IS by an issuer or its affiliate are typically set forth in the applicable offering documents. Mutual funds or their affiliates pay Kestra IS ongoing 12b-1 distribution and shareholder servicing fees applicable to certain share classes purchased for a client account during the period that the client maintains the mutual fund investment. Advisory accounts are credited back an amount equal to the 12b-1 fees Kestra IS receives from the mutual funds, except for 12b-1 fees received by NFS, the clearing firm, in connection with sweep money market mutual funds, which NFS in turn pays to Kestra IS and Kestra IS retains. This creates a conflict of interest for Kestra IS to recommend a money market mutual fund as a sweep account option for its brokerage account.

There are significant differences between brokerage and advisory services, which are governed by different regulations, have different compensation structures, and place different obligations on your Advisor. The services provided for brokerage and advisory accounts also differ, and one arrangement may entail a lower cost than the other. Compensation for brokerage accounts is typically commission-based. Compensation for advisory services is typically fee-based and assessed either as a flat fee or based on a percentage of assets under management. In some instances, a security may be purchased only through a broker-dealer (for which the customer would pay commissions). At times, your Advisor will offset advisory fees you pay for investment advisory services by the amount of commissions received on the purchase or sale of a security or will not assess an advisory fee on assets for a period of time so that the Advisor does not receive investment advisory fees and commissions on the same assets.

You may, but are not obligated to, engage our Advisors, in their capacities as registered representatives of Kestra IS, to implement investment recommendations on a commission basis. Acting as a registered representative of a broker-dealer and recommending the purchase of securities involves a conflict of interest since the receipt of commissions provides an incentive to recommend products based on the commissions received rather than your particular needs. The firm does not oversee and is not responsible for overseeing the sale of securities or fixed insurance products by your Advisor in their capacity as a registered representative of Kestra IS or as an insurance agent. You are under no obligation to purchase any products sold by our Advisors while acting as a registered representative or insurance agent.

Our Advisors, in their capacity as registered representatives of Kestra IS, have the ability to offer various securities to customers, including customers who are advisory clients of the firm. Such products include non-traded securities such as hedge funds, limited partnerships and privately offered securities. Generally, you must meet certain financial, experience and/or risk tolerance requirements before you may invest in such products. While Kestra IS introduces accounts and securities transactions to NFS, Kestra AS may buy or sell securities through other custodians or clearing firms.

In addition to the advisory fees you pay, when securities transactions are effected on behalf of investment advisory clients through our affiliated broker-dealer, Kestra IS, it receives transaction-based compensation. This compensation creates a conflict of interest where we recommend, purchase or sell securities through Kestra IS because in such instances we receive investment advisory fees and Kestra IS receives commissions, transaction fees, 12b-1 fees or other transaction based compensation. In addition, Kestra IS receives non-transaction-based compensation, such as IRA custodial fees and administrative fees, when it is utilized as an introducing broker-dealer by investment advisory clients of the firm. Thus, the firm has a conflict of interest in recommending the use of Kestra IS as an introducing broker-dealer to you.

Our parent company, Kestra Financial, Inc., owns other investment advisers, insurance agencies, and service providers (Kestra Affiliates). When a company is acquired, production incentives are typically put into place in order to create an incentive to maximize earnings. When such a company's financial professionals are registered with us or one of the Kestra Affiliates, the financial professional has an incentive to both maximize their production and to recommend the products and services of the Kestra Affiliates. From time to time, our Advisors will recommend that you purchase or sell products and services of or through the Kestra Affiliates, and these Kestra Affiliates (such as Kestra IS) receive compensation as a result. Such a recommendation creates a conflict of interest since it results in increased compensation to a Kestra Affiliate and your Advisor. As an example, your Advisor may recommend that you purchase variable insurance or fixed indexed annuities through Kestra IS, and if you do then Kestra IS and your Advisor receive compensation. Such compensation is in addition to any advisory fees you pay to the firm.

Our affiliation with certain insurance agencies and the additional compensation an Advisor receives, irrespective of our affiliation, creates a conflict of interest to the extent our affiliates or Advisors receive compensation in addition to the advisory fees you pay us.

Kestra Financial, Inc. and the Kestra Affiliates are ultimately owned by Kingfisher Holding, LP

(Kingfisher). Some of our Advisors own equity in Kingfisher and stand to benefit if Kestra AS and the Kestra Affiliates perform well financially. This ownership creates a conflict of interest since Advisors owning equity in Kingfisher have an incentive to recommend the services of the Kestra Affiliates.

Other relationships with other Kestra companies include our ability to recommend services of our affiliate, Trinity Financial Services. Trinity Financial Services is an affiliated third party administrator made available to Advisors for recommendation to retirement plan sponsors. The recommendation of Trinity Financial Services creates a conflict of interest since our affiliate would receive increased compensation if it is selected by a client.

We are affiliated with Arden Trust Company. The recommendation of this company creates a conflict of interest since our affiliate would receive increased compensation if it is selected by a client.

An affiliate of Kestra AS is engaged in the acquisition of wealth management businesses. Kestra AS's affiliate periodically purchases the wealth management practice of existing Kestra Advisors. In addition, Kestra AS's affiliate periodically purchases the wealth management practice of investment adviser representatives of other companies and those representatives become Advisors of Kestra AS as a result. These acquisitions create a conflict of interest since the Advisor has a financial incentive to recommend a client engage Kestra AS for advisory services, engage Kestra IS for brokerage services, and to recommend additional products and services. We are affiliated with Kestra Investment Management, LLC (Kestra IM). Kestra IM provides ongoing discretionary investment management services to clients through programs and platforms offered by or through affiliated registered investment advisers. Kestra IM is a Portfolio Manager offered through our AdvisorEnterprise Fund Strategist Portfolios (FSP) and Separately Managed Accounts (SMA) wrap fee programs. The recommendation of Kestra IM as Portfolio Manager creates a conflict of interest since our affiliate receives compensation for managing your assets in addition to the advisory fee we receive. You are under no obligation to use Kestra IM as a Portfolio Manager for your Portfolio.

Affiliated funds of Warburg Pincus, LLC ("Warburg Pincus") own a majority interest of the ultimate parent company of Kestra Advisory Services, LLC ("KAS"), Kestra Private Wealth Services, LLC ("KPWS") and Kestra Investment Services, LLC (together with KAS and KPWS, "Kestra"). Kestra makes available investment funds affiliated with Warburg Pincus. The recommendation of such a fund creates a conflict of interest since the holder of a majority interest in Kestra's ultimate parent company would directly or indirectly benefit from an investment in the fund.

In addition, an affiliate of Warburg Pincus owns a financial interest in the investment adviser to certain funds available through the alternative investment platform, iCapital, that Kestra uses to make such investments available. The recommendation of such a fund creates a conflict of interest since the holder of a majority interest in Kestra's ultimate parent company, Warburg Pincus, would directly or indirectly benefit from an investment in the fund.

Additional information regarding funds affiliated with Warburg Pincus or advised by an affiliate of Warburg Pincus is available at <https://www.kestrafinancial.com/disclosures/company-information>

or by contacting Kestra's chief compliance officer.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

We maintain a written code of ethics in accordance with the Advisers Act that is intended to promote an ethical culture for our firm. Our code of ethics requires our personnel and Advisors to treat sensitive information confidentially, not misuse material non-public information about client transactions, report violations of the code, and comply with federal securities laws. The code of ethics also requires certain personnel and Advisors to report their personal securities holdings. We will provide a copy of our code of ethics upon request.

Our personnel and Advisors may invest for their own accounts in interests in investment partnerships, venture capital vehicles, and hedge funds and other commingled products or individual investment accounts managed by other advisers we have recommended to you as well. These entities and managers may also separately buy or sell investments that you buy or sell for your own account or that we have recommended to you. Generally, our Advisors and personnel have no ability to influence or control these entities' transactions in securities. If such influence or control did exist, our personnel and Advisors would be subject to policies on employee trading described in our code of ethics and compliance manual to address this conflict of interest.

Our employees and Advisors may invest for their own accounts in securities which may also be recommended, purchased, or sold for you as our advisory client. Our code of ethics requires Advisors to place the interests of clients before their own interests. Our compliance department reviews personnel and Advisor trades each quarter in an effort to ensure that their personal trading does not impact trades for clients and that our clients receive preferential treatment. Personal trades which consist of mutual funds or exchange-traded funds will typically not have an impact on client trading or securities markets.

Review of Accounts

Our Advisors will typically meet with you at least annually, to review the performance of your account, any changes to your financial situation, and investment goals and objectives. We also require you, in our standard client agreement, to inform your Advisor promptly of any changes to your information or circumstances, including changes to your financial condition or investment objectives. Our Advisors and our home office personnel are typically available during normal business hours to answer questions or concerns you may have.

Client Referrals and Other Compensation

We compensate various affiliated and unaffiliated third parties called "referrers" to refer us clients and prospects they believe would benefit from our investment advisory services. Any such arrangements will be designed to comply with the Advisers Act, which requires, among other

things, that you receive this brochure, we have an agreement with the referrer, and that you receive a compensation disclosure detailing the amount we will pay the referrer that referred you.

We may also enter into arrangements wherein we and our Advisors refer you to affiliated and unaffiliated investment advisers that will provide advisory services to you. When we make such a referral, we and our Advisor will typically receive a portion of the total fee the investment adviser charges you for as long as they provide you services. Any such arrangements will be designed to comply with the Advisers Act.

We have arrangements with various third-party managers or service providers that our Advisors may refer you to. We receive compensation from these managers or service providers to support conferences, training, marketing efforts, ongoing education of Advisors and the marketing efforts we perform on their behalf. These fees are negotiable and range up to \$820,00 or up to 0.10 percent of the assets under management or new sales. In addition, we receive compensation from various third-party managers or service providers based upon a percentage of our client assets under their management. Such compensation ranges up to 0.05 percent of the assets under management. The third-party managers or service providers with which we currently have such arrangements are: AssetMark, SEI Investments Management Corporation ("SEI"), Brinker Capital, Buckingham Strategic Partners, City National Rochdale, Symmetry Partners, Horizon Investments, BNY Mellon.

These relationships and the compensation we receive create a conflict of interest because we have an incentive to recommend the services of these third-party managers versus other third-party managers. Although they benefit from the conferences, training and other services supported by these third party managers, our Advisors do not receive any monetary compensation associated with these arrangements.

In addition, Buckingham Strategic Partners offers all Advisors with assets on their platform a basic subscription to MoneyGuidePro at no cost to the Advisor. Furthermore, Advisors can pay \$660 to receive an upgraded version of MoneyGuidePro with Buckingham Strategic Partners' data integrated into the software. Those Advisors who place at least \$10MM on Buckingham Strategic Partners' platform receive the upgrade at no cost. This arrangement creates a conflict of interest because it incentivizes an Advisor to place business with Buckingham Strategic Partners in exchange for software access.

Our Chief Compliance Officer is available to address any questions that a client or prospective client may have regarding our services, compensation or conflicts of interest.

We or our affiliated broker-dealer make available hundreds of different mutual fund and variable insurance products to our representatives and customers. We also make available many retirement vehicles such as 401(k) and group variable annuity products, as well as alternative investment products such as limited partnerships, real estate investment trusts, and hedge fund products. Our Advisors are free to choose what products they sell to customers from among these many products. Because of the numerous investment and insurance alternatives available, we or our affiliates focus on the sale of products of a select number of providers ("Select Providers"). Select Providers are given increased access to our Advisors for the purpose of

providing marketing, education and product support.

We or our affiliated broker-dealer receive both financial and non-financial support from certain mutual fund, insurance and other companies or their affiliates based upon the sale of such companies' products. We or our affiliate receive more compensation for the sale of products of Select Providers than for the products of other providers we sell and thus have a financial incentive to sell the products of Select Providers. The amounts and forms of compensation we or our affiliate receive from Select Providers vary based on a number of factors including level of past sales, prospective future sales and the types of service and access to distribution we provide. We or our affiliate receive one or more of the forms of compensation described below in connection with our arrangements with each Select Provider. These payments are made from the resources of the investment adviser or distributor (or one of their affiliates) in the case of mutual fund Select Providers, and from the resources of the insurance company (or its affiliate) in the case of variable annuities, group annuities, and variable life products. These payments are in addition to the sales charges, rule 12b-1 fees, service fees, redemption fees, deferred sales charges and other fees and charges described in the prospectus fee tables or offering documents of the various products.

The select provider payments listed below are as of the date of this filing and subject to change. These relationships create a conflict of interest as they result in increased compensation to us, your Advisor or our affiliates.

Please visit our website <https://www.kestrafinancial.com/disclosures/company-information> more information regarding the companies and amounts and types of compensation we receive. If you do not have access to our website, you may contact your Advisor or our home office for additional information.

Mutual Funds, ETFs, and UITs

Select Providers of mutual funds and ETFs pay us or our affiliate either an amount of up to 0.07% on AUM for products attributable to us, or fixed fees of up to \$225,000 annually, or up to 20% of the weighted average net expense ratio of ETFs participating in the Kestra NTF ETF program, and 0.175% on AUM of UITs. We also receive fixed fees of up to \$60,000 annually to support and participate in various conferences and seminars conducted by us and our affiliates. Our affiliate receives up to \$18,000 through the free ticket program described in the **BROKERAGE PRACTICES** section of this brochure.

Variable Insurance Products – Variable Annuities and Variable Life Insurance

Select providers of variable insurance pay our affiliate, Kestra IS, an amount up to .25% of the amount of our new sales of their variable annuity products quarterly. Select providers of variable life insurance products also pay our affiliate, Kestra IS, or their affiliated insurance agencies wholesale overrides in an amount up to approximately 31% of first year target premium and an amount up to approximately 4% of any renewal premiums of their variable life products. These providers will also pay our affiliate, Kestra IS, fixed fees of up to \$75,000 annually to support various workshops and meetings, to support development of account management tools and other technology and to support due diligence efforts conducted by us and our affiliates. In the case of

variable life insurance products, Select Providers provide a variety of policy and underwriting support services to Kestra IS, our affiliate and our Advisors. Kestra IS may pay our Advisors a higher percentage of compensation for sales of Select Provider variable life insurance products than for other such products we sell.

Kestra IS provides a higher compensation schedule for the sale of variable life insurance products to members of PartnersFinancial than to non-members. Members of PartnersFinancial are also eligible to receive bonus payments from PartnersFinancial for the sale of these products. Please ask your Advisor or contact our offices if you are unsure whether your Advisor is a member of PartnersFinancial.

Equity and Fixed Indexed Annuities

Select providers of equity and fixed indexed annuities pay us or our affiliate an amount of up to 0.15% based on gross new sales volume. Such providers also pay us or our affiliate fixed fees of up to \$75,000 annually to support and participate in various conferences and seminars conducted by us and our affiliates.

Retirement Products

Select Providers of 401(k), group annuity and other retirement products pay fixed fees for the benefit of Kestra AS or its affiliates up to \$125,000 annually to support and participate in conferences and seminars.

Alternative Investments

Select Providers of alternative investment products, including limited partnership, real estate investment trust (REIT), and hedge fund products, pay us or our affiliate an amount of up to 1.00% of new investments in such products. In addition, such providers pay us or our affiliate fixed fees of up to \$75,000 annually to support and participate in conferences and seminars. Select Providers of alternative investment products also pay us or our affiliates an initial fee of up to \$5,000 and an annual fee of up to \$1,500 to support the due diligence efforts of Kestra IS and its affiliates related to such products and providers.

Fixed Income

Advisors Asset Management, Inc. (AAM) is a Select Provider for fixed income securities transactions, including Unit Investment Trusts (UITs) and structured products. First Trust Portfolios, LP (FTP) is a Select Provider for UITs and structured product transactions. The **Brokerage Practices** section of this brochure details our broker-dealer affiliate's compensation arrangement with AAM and FTP.

Unsecured Loans

Through our relationship with Envestnet, our Advisors have access to the Advisor Credit Exchange ("ACE"). Kestra Advisory Services, LLC receives compensation in the form of a one-time payment of 25 bps of the loan amount for each loan that we refer to the Advisor Credit Exchange. This compensation is not shared with our Advisors. You are under no obligation to secure a loan

through ACE. The recommendation of ACE creates a conflict of interest since our RIA would receive increase compensation if selected by a client.

Deposit Products

We have a relationship with Goldman Sachs that allows our Advisors to make available non-securities deposit products and services, including a high-yield savings account. We or an affiliated company receive a fee in connection with each account opened through this program. The fee ranges from 15 bps to 37.5 bps and is based on the Target Federal Funds Rate. Although the fee is not shared with our Advisors, we have an incentive to recommend clients open accounts with Goldman Sachs since we or our affiliate will receive compensation, which is a conflict of interest.

Investment Banker Referral

Through our affiliated broker-dealer's relationship with Forto Capital Markets, our Advisors may refer clients to Forto Capital, which has a network of investment bankers that may assist clients with potential mergers, acquisitions or financing arrangements. This relationship allows our Advisors to support their business owner clients considering the sale of a business, as well as options available for raising capital. Neither we, our Advisors or affiliates are involved in brokering the purchase or sale of client businesses or raising capital for such businesses. However, to the extent a client utilizes an investment banker introduced by Forto Capital, Forto Capital will receive a referral fee from the investment banker, a portion of which Forto Capital will pay our affiliated broker-dealer and we in turn share with our Advisor. As such, we and our Advisor have a financial incentive to recommend the use of Forto Capital to source investment bankers, which is a conflict of interest.

We or our affiliated broker-dealer generally charge a non-refundable due diligence fee to third-party managers or product sponsors considered for inclusion in our investment platforms available to Advisors. We do not share these fees with our Advisors. Paying such a fee does not guarantee acceptance on any of our platforms or access to our Advisors. Initial fees charged may be up to \$5,000, depending on the complexity of the manager and the resources we need to perform the due diligence. Thereafter, the due diligence fee is typically \$1,500 annually, but may be more or less than this amount based upon the third-party manager or product sponsor and the nature of the product or services. We may waive these fees.

We have entered, through our affiliated broker-dealer, into a custodial support services agreement with NFS and Fidelity Brokerage Services, LLC in connection with our participation in their Fidelity Institutional Wealth Services (IWS) platform. We provide back-office, administrative, custodial support and clerical services in connection with your accounts on the IWS platform. For these services, we receive an amount of up to 0.28 percent of our client assets on the IWS platform.

To the extent we utilize the services of other broker-dealers and custodians to execute or assist us in filling customer trade orders, we generally receive compensation from such broker-dealers in connection with the trades. In addition, we may receive execution price discounts and other compensation from these custodians and broker-dealers.

In order to help cover or defray the costs of transitioning from another investment adviser to Kestra AS, our Advisors receive various forms and amounts of transition assistance. Such transition assistance may include loans, rent, technology services and equipment, legal expenses, administrative support, termination fees associated with moving accounts and regulatory services, payments based on production, reimbursement of fees, free or reduced-cost marketing materials, attendance at conferences and events, and access to preferred pricing.

We receive compensation from our custodian to offset the cost of transitioning assets from direct mutual fund providers. NFS will pay Kestra IS a portion of the fees and costs which customers incur from other clearing providers or otherwise in connection with the transfer of eligible accounts. This compensation is not shared with our clients or our advisors, however the compensation serves an incentive to recommend clients transfer their accounts to NFS, which is a conflict of interest.

NFS will also pay Kestra IS an annual net flows credit of 9 bps on eligible assets transferred onto the NFS platform. This revenue is not shared uniformly with our advisors, but to the extent it is shared, the conflict of interest to refer assets to NFS is also shared with our Advisors.

We make loans to Advisors which may be forgivable based on years of service with Kestra AS or its affiliates, assets under management, the amount of production with us or our affiliates or some combination of these factors. This practice creates a conflict of interest since the Advisor has a financial incentive to recommend a client engage Kestra AS for advisory services, engage Kestra IS for brokerage services, and to recommend additional products and services in order for their loan to be forgiven.

Vendors may also elect to pay the travel expenses of Advisors for whom the vendors provide either education or due diligence trips or to provide meals or invite Advisors to events such as sporting events. This compensation all serves as an incentive to recommend the products and services of those vendors from whom they receive such marketing reimbursements. Advisors are limited to \$100 for the receipt or provision of gifts per person per year.

Financial Information

We do not have any financial condition likely to impair us from meeting our contractual commitments to you.

Brokerage Practices

You will enter into separate custodial/clearing agreements with the applicable custodian for your advisory account. We typically place trades for our clients through Kestra IS, which introduces accounts and transactions to its clearing firm and custodian, NFS. However, we sometimes designate Pershing, Fidelity Institutional Wealth Services (IWS), Schwab, or other alternative clearing and custody companies. Your funds and securities are held with those custodial firms, and not by us, Kestra IS or your Advisor. We may also, at our discretion, accommodate your request to use an alternative custodian.

Use of Kestra IS

Although we may utilize other broker-dealers and account custodians to service your advisory account, as noted above we generally use our affiliated broker-dealer, Kestra IS, which introduces accounts to its clearing firm, NFS. By using our affiliated broker-dealer, we are able to provide a uniform technology platform to our Advisors for the management of client accounts and provide clients a uniform clearing and custodial platform applicable to both advisory and non-advisory brokerage accounts. However, the use of our affiliated broker-dealer and NFS creates a conflict of interest because Kestra IS earns brokerage commissions, markups, revenue sharing, transaction fees and other revenue, including non-transaction fees, in connection with your advisory account.

Kestra IS's Clearing Agreement with NFS

NFS performs certain brokerage functions for the account we advise on and acts as custodian for the assets in such account. NFS handles the delivery and receipt of all securities bought or sold in your account, values securities, receives and distributes all dividend and other distributions, and processes exchange offers, rights offerings, warrants, tender offers, or redemptions. NFS also sends trade confirmations (unless suppressed by you), periodic account statements of all activities, and shareholder communications. NFS maintains custody of your assets and performs other customary custodian services. NFS charges and collects fees and processes deposits to and withdrawals from your advisory account.

The use of NFS involves a conflict of interest because NFS pays Kestra IS various amounts in connection with assets on their platform. Kestra IS's business relationship with NFS also provides Kestra IS with considerable other benefits, including favorable pricing with NFS (including execution price discounts that increase with trade volume - these discounts are not shared with our Advisors or with clients), receipt of revenue sharing payments from NFS on certain mutual funds and ETFs and the sweep account bank account option, receipt of credits from NFS for business development and for net positive asset flows onto the NFS platform, and receipt of a portion of interest payments on margin loans and non-purpose loans. In addition, NFS provides Kestra IS payments for certain conferences and programs. The receipt by Kestra IS of such compensation from NFS, including credits and discounts that reduce amounts Kestra IS otherwise owes to NFS, creates a conflict of interest for the firm; the firm has an economic interest to use Kestra IS because of the affiliation between the two companies and Kestra IS has an economic incentive to use NFS as its clearing firm for trade execution and custody over other firms that do not or would not provide such economic benefits to Kestra IS, even if such other firms might be more beneficial to clients of the firm. Accordingly, we have a financial incentive to recommend and use Kestra IS and NFS for brokerage and custodial services.

Kestra IS has a contract with NFS which provides Kestra IS incentives to place assets with NFS, as well as disincentives in the form of charges to Kestra IS if it were to terminate its contract with NFS before the end of the contract term. These contract terms create a conflict of interest for Kestra IS since Kestra IS has an incentive to utilize NFS as a clearing firm and custodian.

Markups

NFS charges Kestra IS for certain products and services (such as clearing of transactions,

printing, handling and delivery or e-delivery of statements and trade confirmations, account verification and a number of technology and product solution services) that Kestra IS is responsible for providing to customers (including advisory clients of the firm), and Kestra IS sets its own price for such services, including administrative services and transactions. Kestra IS typically charges clients more for these services than it pays to NFS, which is sometimes called a “markup,” and the markups vary by product, the type of service provided, the nature and amount of transactions involved (if applicable) and the type of account. This practice creates a conflict of interest for us since we have a financial incentive to recommend Kestra IS since Kestra IS earns substantial additional compensation for the services it provides. Advisors do not benefit directly from this arrangement. In addition, certain fees Kestra IS pays to NFS decrease as the total assets custodied with NFS increase. As a result, we have an incentive to recommend that you increase your investment in your advisory account, as that allows Kestra IS to pay NFS lower fees.

Kestra IS keeps the difference between the fee its customers (including you) pay and the amount paid to NFS, to cover its internal and external costs associated with processing the transaction(s) and providing other services and to generate revenue. This presents a conflict for Kestra IS, since setting a higher fee increases the revenue it receives, even though it will result in you paying higher fees. These markups are in addition to the investment advisory fees you pay us, and you should consider the additional revenue that Kestra IS receives when evaluating the appropriateness of our investment advisory fees.

Kestra IS charges customers more for the services noted below than what it is assessed by NFS in connection with the provision of these services. The amount charged by Kestra IS for these services may be changed at any time.

For more information about Kestra IS’s fees and charges, please see the Summary of Brokerage Fees schedule contained in the Kestra IS Brokerage Agreement, speak to your Advisor or call 844-5-KESTRA. Kestra IS charges its brokerage customers more than what Kestra IS pays NFS or other vendors in order to compensate Kestra IS for its internal and external costs associated with processing securities transactions and providing other services to customers and to generate revenue. While the arrangement between NFS and Kestra IS serve as incentive to open accounts with NFS, no portion of such fees and charges are shared with our Advisors.

Our affiliated broker-dealer acts as a selling agent on a best efforts basis in their capacity as a broker-dealer for new issues of fixed income securities that your Advisor may purchase for your account. In this regard, we rely upon our relationship with a third-party broker-dealer named Advisors Asset Management, Inc. (AAM) to complete transactions in fixed income securities your Advisor may recommend. In connection with such transactions, our affiliated broker-dealer generally receives normal and customary transaction-related compensation as a selling agent for the new issue fixed income security and we will receive advisory fees based on the value of the fixed income security in your advisory account. AAM pays Kestra IS compensation for order flow based upon the total amount of fixed income securities executed through their firm. Kestra IS receives 20 percent of the concession charged by AAM for all our clients’ advisory and brokerage transactions. Similarly, Kestra IS receives up to 25 bps for structured product transactions utilizing First Trust Portfolios, LP (FTP) and AAM. These arrangements create a conflict of interest since our affiliated broker/dealer will earn additional compensation associated with the use of our broker-

dealer's, AAM's and FTP's services. Our Advisors do not receive any portion of this additional compensation, however.

Fixed income transactions may also be executed through NFS's bond platform. Kestra IS assesses a markup on the transaction, which creates an incentive for us to utilize the services of NFS's bond platform and increase compensation to our affiliate. However, our Advisors do not receive any portion of the markup.

We will allocate partially completed trades either in a pro-rata, random fill, or other method designed to treat you and all our clients fairly and equitably over time. The commissions we charge may be higher or lower than those charged by other broker-dealers.

We correct our trade errors arising from transactions in your account at our expense; however, we reserve the right to retain any gains that may arise from correcting such errors and to charge your Advisor any retail ticket charges that result from a trade correction.

Agency cross transactions take place when we cause a security to be transferred from one client account to another. Kestra AS does not allow agency cross transactions in advisory accounts. Also, we do not direct client securities transactions to obtain research or other benefits, otherwise known as "soft dollars."

We and our Advisors will aggregate orders for your account where aggregation is appropriate and practicable or will result in a more favorable overall execution for you. We will allocate such orders at the average price of the aggregated order. You will pay the same ticket charges on any aggregated orders that you would on non-aggregated orders. Aggregation does not benefit you when your account has trades in mutual funds or exchange-traded funds, and therefore we do not aggregate trades of these securities.

We effect transactions for your account through broker-dealers that refer us advisory business. The use of such broker-dealers for trades in your account creates a conflict of interest since we have an incentive to increase referrals to our company. Commissions and fees may be higher at those broker-dealers than what is charged by other broker-dealers.

Our Advisors will oversee and direct the investments of your accounts subject to the terms of your advisory agreement and any limitations you may impose on us in writing. We have an obligation to seek to obtain best execution for transactions in your account. To the extent you have imposed a limitation on brokerage selection or have directed us or your Advisor to utilize a certain broker-dealer, we will not have the ability to negotiate commissions among various brokers or to obtain volume discounts. We also may not achieve best execution, and you may pay higher commissions and transaction costs and receive less favorable net pricing than other clients as a result.

Investment advisers must act in the best interest of their clients, including the selection of appropriate mutual fund share classes, and disclose fees associated with the recommended share classes. Many mutual funds offer multiple share classes depending on certain eligibility and purchase requirements. Each class represents the same interest in the mutual fund's portfolio. The principal difference between the classes is that the mutual fund charges different fees and expenses on the various share classes based often on the amount invested. For instance, in

addition to the more commonly offered retail share classes (typically, Class A, B and C shares), mutual funds may also offer institutional share classes and other share classes that are specifically designed for accounts that participate in fee-based investment advisory programs. Institutional share classes or classes of shares designed for purchase in an investment advisory program usually have a lower expense ratio and are less costly than other share classes. Even with respect to a particular share class, expenses will vary by fund and by fund company. These fees and expenses negatively impact investment returns.

Mutual Fund Selection

Investment advisers must act in the best interest of their clients, including the selection of appropriate mutual fund share classes, and disclose fees associated with the recommended share classes. Many mutual funds offer multiple share classes depending on certain eligibility and purchase requirements. Each class represents the same interest in the mutual fund's portfolio. The principal difference between the classes is that the mutual fund charges different fees and expenses on the various share classes based often on the amount invested. For instance, in addition to the more commonly offered retail share classes (typically, Class A, B and C shares), mutual funds may also offer institutional share classes and other share classes that are specifically designed for accounts that participate in fee-based investment advisory programs. Institutional share classes or classes of shares designed for purchase in an investment advisory program usually have a lower expense ratio and are less costly than other share classes. Even with respect to a particular share class, expenses will vary by fund and by fund company. These fees and expenses negatively impact investment returns.

The brokerage or clearing platforms we utilize, such as those provided by NFS and the other custodians, and Kestra IS do not make available all mutual fund families or all share classes of all mutual funds. This means that mutual funds or share classes not available through these platforms cannot be purchased for advisory clients. Certain share classes are not eligible to be purchased in connection with an advisory relationship. Accordingly, clients may not be invested in the lowest cost share class offered by a mutual fund company. We do not allow B or C share mutual funds to be held in connection with an advisory relationship.

In an effort to ensure we recommend an appropriate mutual fund share class, we utilize a subset of the mutual fund families available through our custodians and Kestra IS. Thus, the availability of individual funds and share classes is dependent upon the agreement that the custodians have with individual fund families. Only one share class is available for each fund recommended on our platform within the fund families we utilize. These funds are chosen based on a set of criteria designed to utilize an appropriate share class for the largest segment of our clients while having consistency across our platforms. This means that the funds and share classes we recommend may not be the lowest cost share class available in the marketplace but will meet our criteria of analysis that includes cost, custodial availability, minimum investment size, and average client trade volume. Clients should not assume they are invested in the share class with the lowest possible expense ratio or cost.

Mutual funds often impose criteria that must be met in order for certain share classes to be purchased. Certain mutual funds will waive such criteria if requested by a financial intermediary,

such as an investment adviser. As a general practice, the firm does not request waivers of the share class criteria set by mutual fund companies even if the prospectus for a fund states that such a waiver is possible. This means that clients generally will not receive the benefit of being able to invest in a lower cost share class that might be obtainable if the firm were to request a waiver of the criteria set by a fund company to purchase a particular share class.

The list of funds available on our platform is subject to review, and we monitor and update our funds list at least annually. You may hold mutual funds not available for purchase in our advisory accounts and those positions will be subject to advisory billing unless specifically excluded. While other mutual funds may be appropriate and meet your needs and objectives, mutual fund recommendations will be limited to those funds we have elected to make available for purchase through our firm and is available on the NFS platform. This purchase limitation extends to funds you may hold in your advisory account.

You should ask your Advisor why the particular funds or other investments that will be purchased or held in your advisory account are appropriate for you in consideration of your expected holding period, investment objective, risk tolerance, time horizon, financial condition, amount invested, trading frequency, the amount of the advisory fee charged, whether you will pay transaction charges for fund purchases and sales, whether you will pay higher internal fund expenses in lieu of transaction charges that could adversely affect long-term performance, and relevant tax considerations. Your Advisor may recommend, select, or continue to hold a fund share class that charges you higher internal expenses than other available share classes for the same fund.

Revenue Sharing to Kestra IS

Kestra IS receives servicing fees, 12b-1 distribution fees and other third-party payments if you implement our recommendations through Kestra IS. For mutual fund purchases made through Kestra IS, for the period in which you are invested in the mutual fund, Kestra IS will receive ongoing 12b-1 and service fees directly from the mutual fund company or ongoing fees from the adviser, underwriter or distributor of the mutual fund. Mutual funds with 12b-1 fees are generally more expensive than funds without such fees. There is a conflict of interest when we recommend these products or services since they result in increased compensation to our affiliated broker-dealer. To mitigate this conflict of interest, we credit back to your account an amount equal to the 12b-1 and service fees Kestra IS collects in connection with your advisory assets, except for 12b-1 fees generated through the default sweep money market mutual funds available on the NFS platform, which NFS remits to Kestra IS and Kestra IS retains. This credit is only available for accounts custodied at NFS. Other custodians available through Kestra AS, such as Schwab or TDA, retain any 12b-1 and service fees generated from the mutual fund holdings in your account.

NFS and IWS offer a no-transaction-fee (NTF) mutual fund program where the transaction charge normally charged to customers is waived for the purchase and sale of mutual funds participating in the program. Participating funds compensate NFS or IWS as applicable, which in turn compensates our affiliated broker-dealer, Kestra IS, based on the amount of assets invested in those funds. As a result, we have a conflict of interest when Advisors recommend these funds on behalf of the firm and the trade is executed through Kestra IS, because this affiliated broker-dealer will receive compensation in addition to any advisory fees you pay to us. If your Advisor normally

absorbs the transaction fees for your account, the NTF program creates a conflict of interest as it results in increased compensation to your Advisor (because there are no transaction costs to be absorbed by your Advisor). NFS generally charges mutual fund companies a higher fee for NTF mutual fund share classes than for other mutual fund share classes. As a result, the mutual funds participating in the NTF program generally have higher expense ratios than similar funds not in the program. Thus over time, you typically will pay higher costs for funds in this program than you would for non-NTF funds subject to transaction charges. The higher internal expenses charged to clients who hold NTF funds will adversely affect the long-term performance of their accounts when compared to share classes of the same fund that assess lower internal expenses.

In addition, Kestra IS generally receives a higher revenue share payment from NFS for each investment in an NTF mutual fund share class than for mutual fund share classes that are not included in the NTF program. Certain fund companies with share classes in the NTF program pay a lower fee to NFS than other fund companies with share classes in the NTF program. This means that Kestra IS receives a lower revenue share payment for each investment in such companies' mutual fund share classes in the NTF program than other mutual fund share classes in the NTF program.

NFS also offers a no 12b-1 fee, no-transaction-fee (iNTF) mutual fund program where the transaction charge is waived for the purchase and sale of mutual funds participating in the iNTF program. Participating funds compensate NFS as applicable, which in turn compensates our affiliated broker-dealer, Kestra IS, based on the amount of assets invested in those funds. As a result, we have a conflict of interest when Advisors recommend these funds on behalf of the firm and the trade is executed through Kestra IS, because this affiliated broker-dealer will receive compensation in addition to any advisory fees you pay to us. If your Advisor normally absorbs the transaction fees for your account, the iNTF program creates a conflict of interest as it results in increased compensation to your Advisor (because there are no trading costs to be absorbed by the Advisor). The funds in the program also often have higher expense ratios than similar funds not in the program. Thus, over time, you typically will pay higher costs for funds in this program than you would for non-iNTF funds subject to transaction charges. The higher internal expenses charged to clients who hold iNTF funds will adversely affect the long-term performance of their accounts when compared to share classes of the same fund that assess lower internal expenses.

Through the clearing agreement between Kestra IS and NFS, NFS remits a portion of the compensation it receives to Kestra IS from the mutual funds participating in the transaction fee (TF) mutual fund program that NFS operates. This compensation increases as the amount of assets held in funds participating in the TF mutual fund program increases. As a result, we have a conflict of interest when Advisors recommend these funds on behalf of the firm and the trade is executed through Kestra IS, because this affiliated broker-dealer will receive compensation in addition to any advisory fees you pay to us.

Kestra IS offers a no-transaction-fee program where the transaction charge is waived for the purchase and sale of ETFs participating in the program (the NTF ETF program). Participating ETFs pay our affiliated broker-dealer, Kestra IS, a rate based on the amount of assets invested in those funds and the average weighted net expense ratio of the fund. As a result, we have a conflict of interest when our Advisors recommend these funds on behalf of the firm and the trade is

executed through Kestra IS, because our affiliated broker-dealer will receive compensation in addition to any advisory fees you pay to us. If your Advisor normally absorbs the transaction fees for your account, the NTF ETF program creates a conflict of interest as it results in increased compensation to your Advisor (because there are no trading costs to be absorbed by the Advisor).

Kestra IS sponsors a Free Ticket Program through which it provides customers the opportunity to purchase or exchange select mutual funds and ETFs at no cost to the Advisor or customer. Kestra IS is able to provide the Free Ticket Program because certain fund families have agreed to reimburse Kestra IS, for the trading costs associated with their funds. Kestra IS supports the trade costs for certain fund companies in the program, which incentivizes us to recommend fund companies for whom trade costs are not supported by Kestra IS. These Free Ticket Funds can be purchased and exchanged at NFS without trading fees paid by our Advisors and their clients. However, there are trading fees charged on the sale of these funds. Some participants of the Free Ticket Program may also be Select Providers.

Some mutual fund families offer share classes of funds, including funds with share classes that are available in the NFS programs discussed above, that do not make payments to NFS. As a result, Kestra IS does not receive revenue-sharing payments derived from investments or holdings in these fund families, which creates a conflict of interest as we are incentivized to recommend fund families that pay revenue-sharing to Kestra IS. When funds do not make payments to NFS for NFS to share with Kestra IS in the form of revenue sharing, they generally have lower fund expenses and will cost clients less money over longer holding periods than funds with share classes that make these payments. As noted, mutual funds sponsored by Fidelity Investments, which is an affiliate of NFS, do not make revenue sharing payments to NFS.

While there are no transaction costs associated with the purchase or exchange of the mutual funds and ETFs purchased through the NTF, iNTF, NTF ETF, or Free Ticket Programs, they often are more expensive (due to having higher operating expenses) over time compared to other share classes of these funds, or similar mutual funds or ETFs that have transaction fees. Higher operating expenses erode overall returns. The revenue sharing arrangements between NFS and Kestra IS create a conflict of interest for the firm when it recommends mutual funds to clients that are purchased through Kestra IS as they result in increased compensation to our affiliated broker-dealer, Kestra IS, and to your Advisor to the extent your Advisor would normally absorb any trading costs. The firm has an incentive to recommend the mutual funds and mutual fund share classes for which NFS pays revenue (or more revenue) to Kestra IS over mutual funds and mutual fund share classes for which NFS does not pay revenue (or pays less revenue) to Kestra IS, even if these mutual fund share classes are more expensive for clients. Your Advisor does not receive any portion of the fees paid to Kestra IS through the NTF, iNTF, NTF ETF, TF, or Free Ticket programs. You should discuss the details of these costs with your Advisor or contact our Chief Compliance Officer for additional information.

The firm has a conflict of interest in connection with the revenue sharing Kestra IS receives from NFS because the firm recommends that clients use Kestra IS as an introducing broker dealer and Kestra IS earns revenue, including the revenue sharing payments it receives from NFS, for acting in that capacity. In addition, when the rate or amount of the revenue sharing payment is based on maintaining or increasing asset thresholds, there is an incentive to make recommendations to you

that will help meet those thresholds.

These conflicts are mitigated in several ways. Neither the firm nor the Advisors receive (i) any of the revenue that NFS pays to Kestra IS, or (ii) any more or less compensation based on what mutual funds or mutual fund share classes are held in a client's account. Additionally, as noted above, Kestra IS makes only one share class of a mutual fund available for purchase and cost is one of the factors Kestra IS considers in deciding what share classes to offer. If a more favorable share class for a particular mutual fund becomes available that meets the criteria utilized by Kestra IS (as determined by Kestra IS in its sole discretion), Kestra IS may make such share class available, and if it does it will convert any holders of such mutual fund to the more favorable share class.

The substantial economic benefits that Kestra IS receives from NFS based on assets invested by firm clients provides an incentive, and therefore creates a conflict of interest, for the firm to utilize NFS as a custodian and to recommend that firm clients use NFS as the custodian.

Asset Based Pricing for Certain Investment Advisory Programs

For the assets in certain investment advisory programs, such as separately managed account programs, unified managed account programs, fund strategist portfolios programs and third party asset management programs, Kestra IS pays a recurring fee to NFS based on a percentage of the aggregate assets invested by advisory clients, excluding certain investments, such as those in NTF and INTF mutual fund share classes, Fidelity funds, cash and cash equivalents. This creates conflicts of interest for the firm as it has an incentive to recommend mutual fund share classes that are excluded from the calculation of the fee Kestra IS pays to NFS, even if such investments are more expensive for clients. The firm also has an incentive to maintain client assets in cash or cash equivalents.

When the assets for these investment advisory programs in Kestra IS accounts that are custodied at NFS reach certain thresholds, the percentage used to calculate Kestra IS's fee to NFS decreases. Similarly, where Advisor ticket charges are in place, Kestra IS receives volume ticket discounts if certain targets are met. This creates an incentive for the firm to recommend advisory clients use NFS as a custodian over other custodians and to recommend that you increase the amount you have invested in your advisory account.

When the assets for these investment advisory programs in a client's account custodied at NFS through Kestra IS are less than a minimum amount established by NFS (other than for "rep as pm" ticket programs), NFS charges Kestra IS a minimum fee for such account. This creates an incentive for the firm to recommend that such an advisory client increase the amount invested in the client's account.

The above conflicts are mitigated in several ways. Neither the firm nor the Advisors receive (i) any benefit if Kestra IS pays lower fees to NFS or (ii) any more or less compensation based on what securities are purchased or held by clients. Additionally, as noted above, Kestra IS makes only one share class of a mutual fund available for purchase and cost is one of the factors Kestra IS considers in deciding what share classes to offer. If a more favorable share class for a particular mutual fund becomes available that meets the criteria utilized by Kestra IS (as determined by

Kestra IS in its sole discretion), Kestra IS may make such share class available, and if it does it will convert any holders of such mutual fund to the more favorable share class.

Sweep Account Options for Kestra IS Brokerage Account

Kestra IS provides a “cash sweep” program to its brokerage customers so that uninvested cash balances (such as from securities transactions, dividends, interest payments, or deposits) in a customer’s brokerage account are deposited into a selected investment option each business day. Generally, sweep account investment vehicles generate lower yields than cash alternatives available outside of the sweep program. Kestra IS selects the cash sweep investment options available to be selected for customers’ brokerage accounts. Please review the brokerage account agreement, as well as the other account opening documents for information about the cash sweep program. You should also refer to the prospectus (or other disclosure document) for the brokerage account’s sweep vehicle which will be provided to you and is also available upon request.

When you establish a brokerage account with Kestra IS custodied at NFS, you are required to select a bank sweep option or money market mutual fund in which the cash in your brokerage account will be held. The sweep account options are features of your brokerage account you have with Kestra IS and the firm plays no role with respect to the sweep account program. The firm does not provide investment advice or any other service with respect to the sweep account program or the options available thereunder. All service with respect to the sweep account program is provided solely by Kestra IS. Your Advisor is acting solely as a registered representative of Kestra IS when they provide service with respect to the sweep account program and the options thereunder.

The firm has a conflict of interest in connection with Kestra IS’s sweep account program because the firm recommends that clients use Kestra IS as an introducing broker-dealer and Kestra IS earns revenue, including revenue from its cash sweep account program, for acting in that capacity. This revenue to Kestra IS, which is in addition to the investment advisory fees paid to the firm, creates an incentive for the firm to recommend the use of Kestra IS as an introducing broker-dealer.

FDIC Insured Bank Account Option

The FDIC bank deposit sweep account option is the default option for cash contributed to non-entity (individual) accounts and Kestra IS receives more from NFS for assets held in that sweep account option than it does for assets placed in a money market fund. This creates a conflict of interest as the default sweep account option is the one that results in more revenue being paid to Kestra IS. In a low interest rate environment, Kestra IS receives a higher amount than customers on funds invested in the bank sweep arrangement. Entities are not eligible to participate in the bank deposit sweep option. The bank sweep account has a yield that varies based on prevailing interest rates. Kestra IS has the ability to dictate what portion of the yield (interest rate paid) on the bank sweep accounts it will retain. Kestra IS’s ability to adjust the yield creates a conflict of interest for Kestra IS since the lower the portion of the yield paid to you, the more Kestra IS earns. While Kestra IS has an incentive for its brokerage customers to select the bank sweep arrangement as the cash sweep option for their accounts, the Advisors do not receive any portion

of the bank sweep compensation paid to Kestra IS. In addition, the Advisors do not receive any more or less compensation based on what cash sweep option is selected by a client.

In low interest rate environments, the application of the investment advisory fee to the funds invested through the bank sweep arrangement will exceed the return on the sweep vehicle, resulting in a negative net yield. Clients should consider this scenario, in addition to the compensation Kestra IS receives in connection with the bank sweep arrangement, when evaluating the reasonableness of the investment advisory fee. The interest rate payable on the bank deposit sweep arrangement generally is lower than what is available directly from a bank.

Money Market Fund Options

In addition to the bank sweep deposit option, Kestra IS makes available a limited number of money market funds that you may elect to have serve as the cash sweep vehicle for your brokerage account. Pursuant to Kestra IS's clearing agreement with NFS, NFS remits to Kestra IS the amount of 12b-1 fees and shareholding servicing fees for money market mutual funds affiliated with or specified by NFS in amounts set forth in the prospectus, plus ten basis points of the amount invested in such funds. The higher the 12b-1 fees paid by the money market mutual fund, the lower the yield on cash in your brokerage account. This revenue sharing creates a conflict of interest on the part of Kestra IS as the increased revenue generated from the money market funds is paid to Kestra IS. Because Kestra IS receives and retains these amounts, it has an incentive to recommend as the sweep option money market funds that pay 12b-1 fees, which in turn will negatively impact the amount you earn on cash in your account. Our Advisors do not receive any portion of the money market compensation paid to Kestra IS.

Kestra IS does not make available share classes of the sweep money market funds that do not pay 12b-1 fees; however, you may purchase money market funds in addition to the ones that are part of the cash sweep program, including funds that do not pay 12b-1 fees, and move your cash from the money market fund or bank deposit account that serves as your cash sweep vehicle into such other funds. While you are not obligated to maintain your cash in the core sweep money market fund or bank deposit sweep account that are part of the cash sweep program, cash in your brokerage account is placed in the sweep option you select or by default and will remain in that sweep option until the funds are invested elsewhere or you withdraw the cash from your account.

Margin

Kestra IS is credited the interest assessed on margin accounts by NFS above the prime lending rate plus 100 basis points. This credit creates a conflict of interest since our affiliated broker-dealer receives additional compensation on margin accounts custodied at NFS in addition to the advisory fees we collect, which provides an incentive to place business with that custodian and to recommend that clients use margin in the accounts we manage or advise on.

Fully Paid Lending Program

NFS operates a program known as the Fully Paid Lending Program (the "FPL Program"). The FPL Program enables you to lend fully-paid or excess-margin securities to NFS. In exchange, NFS will pay you a securities lending fee, calculated based on the market value of the securities loaned

and will pay Kestra IS a fee. The amount of the fee NFS agrees to pay Kestra IS reduces the fee NFS pays to participating clients. Although the fee Kestra IS receives is not shared with our Advisors, we have an incentive to recommend clients participate in the FPL Program since our affiliate will receive compensation, which is a conflict of interest.

Securities Backed Lines of Credit

Kestra IS has entered into a securities backed lending (SBLOC) program with The Bancorp Bank, Tristate Capital Bank, and Goldman Sachs Private Bank Select. This program allows clients to use their securities as collateral to obtain a line of credit. In consideration for marketing their SBLOC programs, The Bancorp Bank, Tristate Capital Bank, and Goldman Sachs Private Bank Select pay Kestra IS quarterly revenue sharing payments of up to 50 bps based on the average daily outstanding loan balance (total loan amount) of the SBLOC. Additional details are available regarding this calculation upon request. Such providers also pay us or our affiliate fixed fees of up to \$85,000 annually to support and participate in various conferences and seminars conducted by us and our affiliates.

Miscellaneous

Termination of Accounts

Typically, both you and our company have the option under our standard agreements to terminate the agreement at any time. In addition, you have the right to terminate the contract without penalty within five (5) business days after entering into the contract. If you pay a fee in advance, fees will be pro-rated from the termination date and refunded to you.

Compliance Policies and Procedures

We maintain written compliance policies and procedures as required by the Advisers Act.

Anti-money Laundering Program

We maintain an anti-money laundering program in accordance with applicable regulations.

Business Continuity Plan

We maintain a business continuity plan designed to minimize the impact of disasters, emergencies and other unforeseen circumstances on our services and communications. A description of our plan is available on our website at <https://www.kestrafinancial.com/disclosures/company-information>, or by contacting your Advisor or our home office.
